

Project: Custom Family Estates

Location: Various

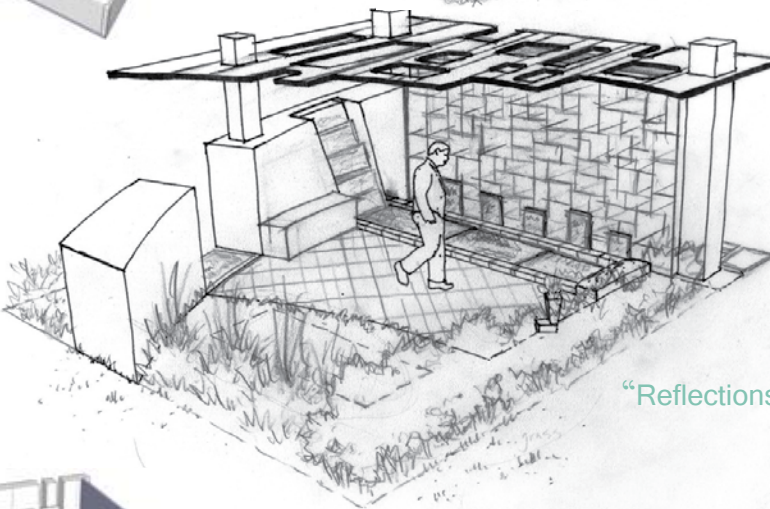

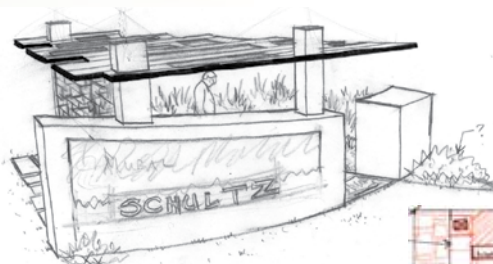

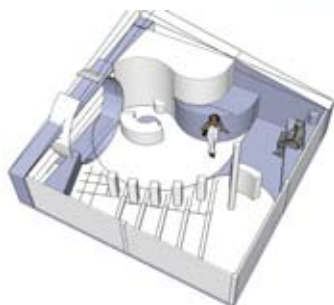

Date: April 2008

Firm: CPRA Studio/Life Remembrance

CPRA/LR determined that there was a growing need for semi-custom family estates in memorial parks. As a result, ten non site-specific estate designs were developed for a flat 20'x20' area. Five of the ten solutions are displayed here. These design concepts are based on themes (such as music) and/or general environmental influences (such as arid climates).

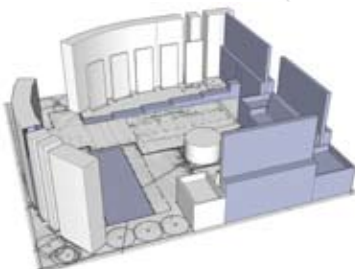

"Harmony & Rhythm"

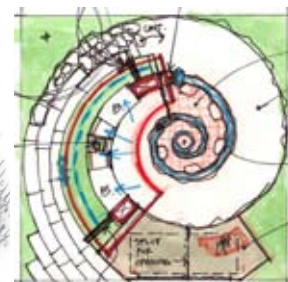

"Reflections"

"Arid Environment"

"Cistern/Rainy Environment"

"Blocks/Rectilinear"
