

Project: Brighton Crossing Beach Club

Location: Brighton, Colorado

Date: March 2003

Firm: DTJ Design

The Brighton Crossing Beach Club is a community pool located in a residential development east of Brighton. The Beach Club includes the following amenities: swimming pool with waterfall and jets, cabana building, guard tower slide, traditional playground, beach play area, and a boardwalk crossing the bio-filter/wet-meadow area. The project emulates a playful Disney-like theme with exotic tropical landscaping.
