

# Initial Material Selection

## Varying Textures:

- Contrasting texture is highly desirable for an infant
- Using the same selection of fabrics on all five models creates a consistency that may help the development of memory
- Each fabric must have noticeably different textures

### SOFT

fleece/flannel/suede

### MORE COARSE

wool and woven naturals

### SMOOTH & SHINY

silk and satin

### +2 Advanced Fabrics

Materials database searches revealed new, high texture materials that are not currently being used for infant toys...
