

WASP™

Built for performance and speed the Wasp™ is the fastest floatplane on the market.

With its specially designed, lightweight plastic and carbon fibre shell for amazing strength, and titanium mechanisms for added durability, this is one floatplane that will always be ready to fly.

Air, Land and Water are now yours to explore with the Wasp™ floatplane!

An easy to use snap locking system for the base and a cockpit that snaps to the titanium rods alongside removable lid for easy access to batteries and other components.

Don't settle for anything less than a

WASP™
