

How it works

1 X  needs minimum 20l

Manufactured in china. Shipped flat pack and given out by NGO's
The families are grouped and are given each a time slot. They need to arrive to the person that used last the Ayaan in order to use the trike. The first journey starts at 6 a.m and finishes depending on the journey length. The last person who is using it needs to leave it next to the "key and service man's" house.

= 50l = maximum 8 families
