The new kid on the block has been here 50 years.

At the new Slades Bank, we're not letting a little history get in the way of progress. In addition to our new name, we've got a new and improved attitude toward customer service. One that empowers every employee to solve your problem or put you in front of someone who can. It's our way of being a good neighbor. The one you've known for years. And the one you're just getting to know. **Welcome, to the new Slades Bank.**
