### Introducing Sanitaire's Gold Series Diffuser.

We've lived and breathed aeration for 40 years. After pioneering many advances in diffused aeration technology, we just reinvented fine bubble aeration with our Gold Series Diffuser. This low-flux membrane delivers the lowest available operating cost through a combination of high oxygen transfer efficiency and low head loss. Its robust, modular design is easy to install, and once again the last word in reliability.

Come learn about Sanitaire's Gold Series Diffuser at Booth 5025 at WEFTEC 2010, October 4-6 in New Orleans, LA.
