

Enjoy a full year of subscriber-only access to NEJM.org and save \$10 in the bargain.

DOESN'T LET AN EXCELLENT OPPORTUNITY PASS HIM BY — TWICE.

Keeps up with important research.

Continually improves his diagnostic skills.

Counts on only the most authoritative resources.

In a world where second chances rarely come along, we're offering you just that — a second chance to subscribe to an essential online resource for physicians: NEJM.org. And save \$10.

For nearly 200 years, countless physicians have counted on NEJM to help them keep up with the most important studies in medical science and clinical practice — all of them peer-reviewed for accuracy and trustworthiness.

They didn't miss the opportunity to zero in on the most relevant changes in medicine, in order to provide the very best care for patients. This is your opportunity to find the key papers that will make a difference in your practice — today *and* tomorrow.

If you're wondering how you'll find time to take advantage of NEJM.org, consider the succinctness of our review articles. You can actually read one of these and get caught up in an area in less than 30 minutes.

Physicians: save \$10.

Opportunity is knocking — again. We're pleased to offer you \$10 off the regular NEJM.org subscription rate. But you must act now to take advantage of this offer.

Enjoy access to resources only a paid subscription delivers.

You'll find a breadth and depth of resources, including:

The **NEW ENGLAND JOURNAL** of MEDICINE

The *New England Journal of Medicine* (NEJM) is a weekly general medical journal that publishes new medical research findings, review articles, and editorial opinion on a wide variety of topics of importance to biomedical science and clinical practice. Material is published with an emphasis on internal medicine and specialty areas including allergy/immunology, cardiology, endocrinology, gastroenterology, hematology, kidney disease, oncology, pulmonary disease, rheumatology, HIV, and infectious diseases. NEJM.org contains both the current issue and an online archive that can be accessed through browsing, advanced searching, or collections by disease or topic. Subscriber services include PDA content access, PowerPoint downloads, and continuing medical education (CME).
