

**iRobot®**

If you hate cleaning floors,  
you'll love Roomba® and Scooba®.

# Let iRobot® Roomba 580 Vacuum Cleaning Robot and Scooba 380 Floor Washing Robot do the dirty work for you.

## Floors are beneath you.

Vacuuming, mopping and scrubbing floors can be tedious, strenuous, time-consuming chores. That's why we developed these amazing floor-cleaning products—because you've got better things to do. Let Roomba and Scooba do the dirty work while you spend your time doing something else.

Get out into the garden. Bring the kids to the park. Have lunch with friends. Go for a walk with the family or tackle that project you've been putting off. Roomba and Scooba will clean up while you're doing what you want to do. They pick up the daily accumulation of dirt, dust, spills, footprints, pawprints and anything else a busy household throws down. They're the easiest way to maintain cleaner floors every day.

## Millions of satisfied owners love Roomba and Scooba.

You're probably wondering: "Do they really work?" Millions of Roomba and Scooba owners say, "Yes!" But before we ask you to believe what "they" say, we invite you to turn the page to see how Roomba works, then how Scooba works. You're just a few pages away from enjoying cleaner floors every day.

# iRobot Roomba 580

## eats dirty floors for breakfast.

### The clean machine.

As you know, keeping floors clean is a daily challenge. Dirt, dust, and pet hair keep piling up. But who has time to vacuum every day? Roomba does. This amazing vacuum keeps your floors clean—automatically. Its On-Board Scheduling feature allows you to easily set Roomba to clean like clockwork whenever it's convenient for you—up to seven times a week. And the beauty of it is, Roomba does the work for you.

### Roomba cleans where others can't.

Let Roomba charge on its Home Base®, then watch it charge into action. Roomba's sleek low-profile design enables it to go where other vacuums can't—all the way under furniture—cleaning places you typically would not think to vacuum each day. Its unique sidebrush reaches outside its body to clean deep into edges and corners. And Roomba's Dirt

"Roomba...is a robotic vacuum that cleans the floors when you tell it to, easily gets to hard-to-reach areas...and then returns to a charging station when it's finished the job. We really, really want one." —Vicky Sanderson, *LoveMyPlace.com*, 11/5/07

Detect and Spot Mode enable it to recognize dirtier areas and to clean more thoroughly in those spots.

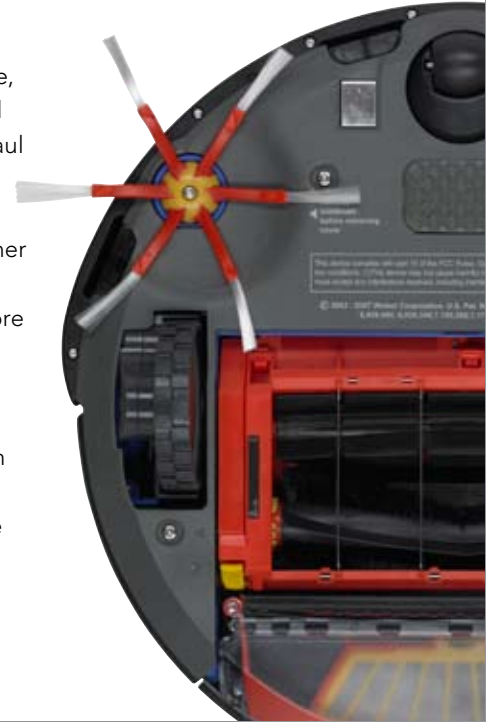

### See Roomba run.

It's fun to watch Roomba run. But there's no need to stick around while Roomba's at work. As Aaron Ricadela writes in *Business Week*, "Its ability to avoid tangles was impressive. Roomba cleaned under the bed, an area my upright [vacuum] could never reach, and deftly scooted past the hanging edges of a quilt. In the living room, it swept right over a thin phone

cord that often gets tangled in my [vacuum's] brushes." Roomba automatically adjusts between hard floor and carpets, while avoiding stairs and other obstacles. New Virtual Wall® Lighthouses™ allow Roomba to complete one room before navigating on to the next, and create invisible barriers to off-limit areas that Roomba will not cross. Then, when Roomba is done cleaning, it will automatically navigate back to the Home Base to charge and be ready for the next cleaning cycle.

### The proof is in the bin.

When the cleaning is complete, check out Roomba's bin. You'll be amazed at all it picks up. Paul Taylor of the *Financial Times* observes, "The new flagship heavy-duty Roomba is altogether more robust with much larger wheels, better suspension, more powerful suction, a bigger dustbin, built-in anti-tangle technology and a redesigned edge-cleaning brush...As such it lives up to its promise as a practical, labour-saving device that sets a new benchmark for home robotics."

# Choose the iRobot Roomba Vacuum Cleaning Robot that's right for you.

Roomba 580

## iRobot Roomba 580 Vacuum Cleaning Robot

- Covers 4 rooms on a single battery charge
  - Navigation technology allows for sequential room cleaning
  - Wireless Command Center puts the control in your hands
  - On-board Scheduling up to 7 times per week
  - Self-charging Home Base
  - 3 Virtual Wall Lighthouses
- Bonus items
    - Silver Faceplate
    - 11 assorted replacement brushes
    - 7 replacement filters

## iRobot Roomba 530 Vacuum Cleaning Robot

- Covers 3 rooms on a single battery charge
- Self-charging Home Base
- 2 standard Virtual Walls

Roomba 530

# Accessorize your Roomba.

## Sidebrush 3-pack for Roomba 500 Series

Keep your iRobot Roomba 500 Series Vacuum Cleaning Robot operating at peak performance! The innovative sidebrush reaches outside Roomba's body and deep into corners and edges to remove more dirt, dust and debris. Sidebrushes are easy to remove and replace as part of routine maintenance. Includes three replacement sidebrushes and a screw for each.

## Virtual Wall Lighthouse for Roomba 500 Series

The Virtual Wall Lighthouse uses an invisible infrared signal to help the Roomba 580 achieve the most efficient and thorough room-to-room cleaning possible. Each Lighthouse contains Roomba in one room until that room is completely vacuumed before moving on to the next, or blocks off-limit areas in your home. For use with Roomba 500 Series robot models 535 and up only.

## Faceplates for Roomba 500 Series

Change the look of your iRobot Roomba 500 Series Vacuum Cleaning Robot to match your home decor. Faceplates easily snap on to all Roomba 500 Series models. Available colors: Silver, Chestnut, Black, Charcoal, Grey, Rust, Steel Blue, White, Champagne.

# With iRobot Scooba 380, you can kiss your mop goodbye.

## (Be sure to rinse it first.)

**Don't rub dirt in—  
toss it out.**

The conventional mop and bucket method of washing floors has its drawbacks. For one, your floors are still dirty when you're done. That's because every time you "rinse" your mop or brush in the dirty water bucket and put it back on the floor,

you reapply the dirt and rub it back into your floors. Here's the breakthrough: Scooba puts down only fresh, clean solution and picks up the grime, trapping it in the dirty water bin.

**Scooba preps, washes, scrubs and squeegees in one pass.**

Its sleek low-profile design enables it to clean under furniture and other hard-to-reach places. Using a unique 4-stage

*Popular Science* named iRobot Scooba Floor Washing Robot one of 2005's "100 Best Inventions of the Year."

cleaning system, Scooba first preps the floor by picking up dirt, crumbs and debris—so there's no need to sweep first. Then it uses only clean washing solution to gently scrub your sealed hardwood, tile and linoleum floors. Then it squeegees the washed floor, picking up the dirty water and leaving the floor sparkling clean and virtually dry. All in a single pass.

### Run Scooba when you're on the run.

Now you can spend time on hobbies or other enjoyable activities while Scooba is busy washing your floors. Scooba automatically cleans each area of the floor an average of five times. It even gets beneath tables and chairs while avoiding carpets and stairs. And, the Virtual Walls keep Scooba away from off-limit areas.

*PC Magazine* writes, "[Scooba] does a better job of mopping the floor than you would do with...bucket and floor mop."

### The proof is in the tank.

When cleaning is complete and you empty Scooba's dirty-water tank, you'll be amazed at all the dirt it picked up. *USA Today* reports, "Scooba roams the room using artificial intelligence. It scrubs the floor with cleaning liquid, rinses it, then sucks up the excess water and stores it to be dumped later."

# Choose the iRobot Scooba Floor Washing Robot that's right for you.

Scooba 380

## iRobot Scooba 380 Floor Washing Robot

- Premium floor washing model
- Covers 850 sq. feet (3-4 average size rooms) per battery charge
- 2 Virtual Walls
- Storage mat

## iRobot Scooba 350 Floor Washing Robot

- Intermediate floor washing model
- Covers 500 sq. feet (1-3 average size rooms) per battery charge
- 1 Virtual Wall

Scooba 350

# Accessorize your Scooba.

## Scooba Caddy

Conveniently store Scooba anywhere in your home. The caddy stores Scooba standing up while protecting the floor beneath the robot. Allows Scooba to be stored in closets and cabinets. Conveniently stows Scooba's power supply cord. Easy to clean. Protects Scoobas drive wheels.

## Scooba Virtual Wall

A Virtual Wall creates a beam of infrared light that Scooba will not cross. Use a Virtual Wall to block off-limit areas that you want Scooba to avoid. Requires 2 D batteries per unit, not included.

## Clorox® Scooba Cleaning Solution

Safe, effective cleaning solution, specially formulated for use with Scooba Floor Washing Robot. Strong enough to clean tough spills, yet gentle enough for use on sealed hardwood floors. Leaves a fresh, clean scent. Contains no bleach. Five 32-oz.bottles.

# Try Roomba or Scooba on your floors for 30 days.

"...judging from the list of new features, the redesign was worth the wait."  
—Yahoo! Tech
