

iRobot Roomba® 580
Vacuum Cleaning Robot
and Scooba® 380 Floor
Washing Robot don't
just clean your floors.
They clean them for you.

Introducing two revolutionary floor-cleaning robots—one that vacuums and one that washes floors automatically while freeing you to do the things you want to do. *CNN Money* writes, "The new Roomba cleaners...know when they've finished cleaning one room, and then move on to the next." And *PC Magazine* declares, "[Scooba] does a better job of mopping the floor than you would do with...bucket and floor mop."

Prepare to be
floored.

**Roomba and
Scooba do the
dirty work for you.**

Dirt, dust, spills and pet hair keep piling up.

But who has time to vacuum and mop every day? With Roomba and Scooba, your floors stay clean automatically. Just push "Clean" and the robots go into action. Roomba thoroughly vacuums the whole floor, even under furniture. And Scooba preps, washes, scrubs and squeegees your floors clean, without putting dirty water back on the floor.

**Run Roomba and Scooba
when you're on the run.**

There's no need to stick around while Roomba and Scooba are working. Roomba automatically adjusts between hard floors and carpets as it vacuums.

Its unique sidebrush cleans deep into edges and corners. Scooba automatically washes and scrubs beneath tables and chairs while avoiding carpets. And both are programmed to avoid stairs.

The proof is in the bin and tank. And in this risk-free offer.

Seeing is believing. When cleaning is complete, inspect Roomba's bin and Scooba's dirty-water tank. You'll be amazed at all the dirt they pick up. You'll also be amazed at all we're offering with purchase: **free shipping, a money-back guarantee, and an interest-free payment plan option.**

Free Shipping for a Limited Time

You won't believe how well Roomba and Scooba clean.
That's why we invite you to try them risk-free for 30 days.

I'm interested. Please contact me ASAP.
