

iRobot Roomba® 580
Vacuum Cleaning Robot
doesn't just clean
your floors.

It cleans them
for you.

Keeping floors clean is a daily challenge. Dirt, dust, and pet hair keep piling up. But who has time to vacuum every day? That's where Roomba comes in. This amazing vacuum cleaning robot keeps your floors clean—automatically. Its on-board computer allows you to easily program Roomba to clean whenever it's convenient for you—up to seven times a week. And the beauty of it is, Roomba does the work while you do something else.

Run Roomba when
you're on the run.

There's no need to stick around while Roomba's at work. As *CNN Money* writes, "The new Roomba cleaners... know when they've finished cleaning one room, and then move on to the next." Roomba automatically adjusts between hard floor and carpets, while avoiding tassles, fringe, cords and stairs. And it systematically cleans up to four rooms on a single charge.

The proof is in the bin.
And in this risk-free offer.

Seeing is believing. When cleaning is complete, inspect Roomba's bin. You'll be amazed at all it picks up. You'll also be amazed at all we're offering with your purchase: **free shipping, an interest-free payment plan option, and a bonus accessory pack valued at \$130.**

If you want cleaner floors,
stop cleaning them.

Roomba cleans where you can't. Gone are the days of trying to sneak a vacuum cleaner under furniture and into tight corners. Roomba's sleek low-profile design enables it to go where other vacuums can't. Its unique sidebrush reaches out to clean deep into edges and corners. Roomba even detects dirtier areas and cleans more thoroughly in those spots.

Free Shipping for a Limited Time

You won't believe how well Roomba cleans.
That's why we invite you to try it risk-free for 30 days.
I'm interested. Please contact me ASAP.
