

It's our business to help your business.

Maine businesses have always relied on Bangor Savings Bank for financial solutions that help them succeed. In that spirit, we're pleased to announce the launch of the Business Insight Center, our online resource that opens a window on up-to-date pragmatic tips and solutions designed specifically for Maine businesses.

Just click www.bangor.com/insight to find a wide array of news, articles, tools, events, and links that will give you insights on how to hone your competitive edge and continue building your business.

I don't have time to read long, wordy articles. And the articles on the Business Insight Center are just right—concise, clear, and well written. The feature on receivables, for example, was enlightening and enabled me to improve my collections. It's an efficient way for me to stay informed—I bookmarked the site and receive the daily email. Once again, Bangor Savings has provided a useful service for small businesses. Before we even knew we needed it!
