

The diagram consists of three parts: H, I, and J.
H: BEGINNING GUTTER SECTION (LEFT)
This side view shows a horizontal gutter profile. The top flange has a total width of 3 3/8 inches, with a 1-inch overhang on each side. The vertical depth of the gutter body is 1 15/16 inches. The bottom flange has a total width of 2 11/16 inches, with a 1/7 inch gap between the gutter body and the bottom flange. The angle of the gutter is 1 degree.
I: END GUTTER SECTION (RIGHT)
This side view shows the opposite end of the gutter profile. It has a similar overall shape to H, with a top flange width of 3 3/8 inches and a bottom flange width of 2 3/8 inches. The vertical depth is 1 7/16 inches. The angle is also 1 degree.
J: END GUTTER ELEVATION
This front view shows the gutter's connection to the roof. The roof flange is 6 1/2 inches deep and is angled away from the gutter by 1/4 inch. The gutter itself is 15 inches wide at the top and tapers to 16 inches at the bottom. The drop from the roof edge to the gutter is 1 inch. The gutter body is 1 1/8 inches wide at the top and tapers to 1 1/16 inches at the bottom. The gutter is 1 inch wide at the top and tapers to 1 1/8 inches at the bottom. The gutter is 1 inch wide at the top and tapers to 1 1/8 inches at the bottom.
