

## OT/PT Gym Revamp

### Design Checklist:

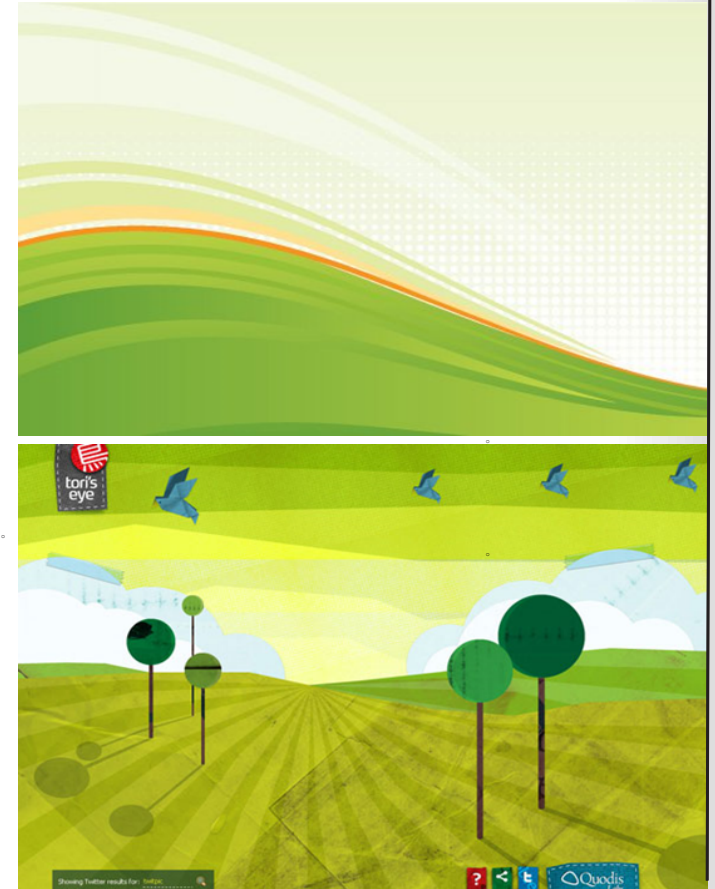

1. Create a recognizable, welcoming, non-threatening, friendly and calming environment for children.
2. Alleviate confusion and stress with simple, clear and effective planning, signage, lighting, detailing and color.
3. Create environments that can be reconfigured to suit the needs of children of differing ages in order for them to feel comfortable and enabled.
4. Brighten healing spaces, emphasizing daylight connections to the outdoors.
5. Engage children with color, playful forms and patterns, and interactive learning.

### Color Inspiration

### Wall Mural Inspiration

Children up to age three tend to prefer bright, primary colors over pastels, and favor bright luminous colors such as red, orange, pink and yellow. Interest in cooler colors increases as children grow older and preferences for high intensity decreases. A greater liking for the colors in shorter wavelengths such as blue and green.

Blue and green are associated with calm security and peace. Due to color associations, a noisy environment may be experienced as noisier if painted in glaring yellows and reds.
