

Don't miss life . . .

because of loose or uncomfortable dentures.

Benefits of implant-supported dentures:

- Help preserve the bone
- Help maintain the integrity of the facial structures
- Increase stability
- Eliminate the need for adhesives
- Help reduce pain from ill-fitting dentures
- Help to improve your eating habits – eating right can improve overall health
- Restore chewing ability – eat what you like
- Can improve speech
- Can improve self confidence

Regular dentures can't prevent bone loss.

Missing all of your upper or lower teeth can cause severe problems that even regular dentures can't remedy.

Implant-supported dentures are the only treatment that helps to prevent bone loss, helps to preserve your appearance, and gives you super-solid protection against the slipping and chattering of regular dentures.

Laugh, talk, and eat with confidence again.

Ask us about implant-supported dentures and how they can help to restore your quality of life.
