

## *The “Miracle” of Implant-Supported Dentures*

Without teeth, you lose the ability to chew and speak properly. Dentures can help, but they often slip while talking, chewing, and laughing – affecting your self-esteem. Dental implants provide a stable foundation for replacement teeth that look, feel and function like natural teeth. Dental implants make people look and feel years younger. This miracle treatment is a quick and easy solution to an improved lifestyle. Leave behind the uncomfortable, poor-fitting dentures for a better you!

At Fresh Start Dental Center, we are the only center in the area with an oral surgeon and a prosthodontist to meet all of your dental needs. Call Fresh Start Dental Center at 1-888-244-1110 for a FREE consultation and experience the miracle of dental implants!

**a fresh start –**  
*is a miracle waiting to sprout.*
