A REVOLUTION IN YOUR FIELD. 3 PRODUCTS. 1 APPLICATION.

Plant Tuff Silicon pHertilizer™ helps promote stronger plant structure, improve environmental stress tolerance, and increase crop yields up to 15%.

The Proven Benefit of Silicon.

Plant Tuff® is a unique three-in-one silicon fertilizer, providing silicon, micronutrients and pH adjustment. Eliminating the need to lime. And providing the perfect balance to develop larger and more expansive root systems, so that your plants thrive even in less-than-perfect weather conditions.

- Adjusts and neutralizes soil pH
- Improves overall soil structure
- Applies with ease
