

ACAF is a 501(c)(3) non-profit organization that assists qualifying family-owned pets in the greater Pittsburgh region who need emergency or specialty care at Pittsburgh Veterinary Specialty & Emergency Center (PVSEC). Our objective is to offer pet owners, in financial crisis, an alternative to euthanasia when their pet faces a treatable, yet life-threatening condition.

ACAF Recipient, Molly, will be present from 8-10p to meet and mingle with guests. Molly has a cancerous, inoperable mass in her heart, but with the help of ACAF funding, her family was able to provide chemotherapy. In September, an echocardiogram revealed that the tumor in Molly's heart is so small that it is barely visible!
