

# Glucose Monitor System

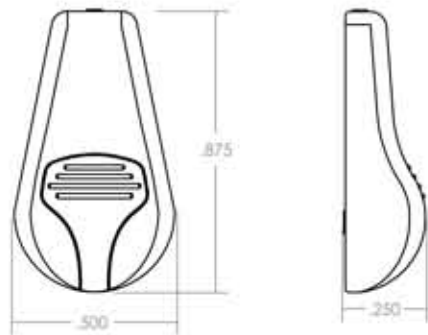

## Insulin Pump

- Uses a motorized pump to push insulin through the bag
- Accommodates 4 rechargeable 357 Sony Silver Oxide watch batteries
- Thin so it is not too bulky on your body

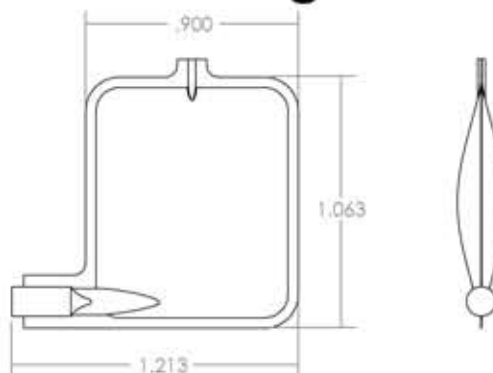

## Automatic Infusion Set

- Press the button for quick insertion
- Can preset the infusion set to insert the cannula straight or at an angle
- Smaller medical tape surface area for less of a chance of irritation

## Insulin Bag

- Flexible bag to fit and curve around every body
- Made of polypropylene medical grade bag
- Attches to pump and inserter
