

This project consists of a **housing tower** with the view to the **Dallas, Texas** skyline to the southwest. A combination of single-story, two-bedroom and two-story, one-bedroom units make up the tower, along with a four-level parking garage, recreation room, fitness center, office, roof deck, etc.

The **exterior front facade** of the housing tower consists of a combination of **metal panels and stucco**, with metal louvers to protect the units from the harsh afternoon sun.
