

Wireless Support Made Simple

OVATION Services Group

Wireless Procurement & Support

Company Overview

Ovation Services is a leading provider of outsourced mobile management. Our team has more than 120 years of wireless industry experience, all focused on saving you time and money providing your valued staff with wireless solutions to keep them productive and in touch. We support any request for any service or device across all carriers, reducing your wireless effort. Wireless has become a mission critical tool in today's enterprise. Supporting your wireless needs is mission critical to us.

Services

OSG Standard - Full Support and Procurement solution that includes Wireless Business Process Outsourcing that controls costs and reduces your time spent on wireless purchasing and support.

OSG Purchasing - The procurement component that will greatly reduce your time spent on wireless ordering and administration and end-user follow-up. Great for companies with their own approval and standard enforcement solutions seeking a time-saving purchasing solution.

Blackberry Services - Optional add-ons to OSG Standard or Purchasing to provide Blackberry Enterprise Management as well as proactive Blackberry infrastructure troubleshooting with Zenprise.

Expense Management - Cost reduction through rate plan optimization, followed by monthly wireless analysis, reporting, and management.

Benefits

We reduce your cost and time spent on administering and supporting wireless. We adhere to your standards and policies for service, equipment, and purchasing approvals to keep costs as low as possible. Your monthly wireless spend with the carriers will go down also.

Eliminate or reduce your time spent on daily administrative tasks like new activations, replacement devices, deactivations, ports -- or any wireless need.

Ensure compliance with your rate plan, feature, and equipment standards to lower Total Cost of Ownership.

Guarantee purchasing and approval policy compliance to reduce unneeded extra costs.

Maintain or improve your end-user satisfaction with exceptional communication from request through completion.

Resolve end-user issues faster with our Blackberry and data device technical support.

Eliminate tedious carrier calls for you and your users.

Reduce your wireless spend within 60 days with our industry-leading rate plan optimization.

Reduce your administrative time analyzing, A/P coding, and reporting on monthly invoices.

Unbiased Wireless Expertise

At Ovation, we offer Telecom and IT professionals the services required to manage wireless in today's mobile enterprise, while reducing your wireless expenses. We are unbiased, without conflicting agendas, as we are not wireless agents or resellers and take no direct or indirect compensation of any kind from carriers. We do not sell wireless service or equipment.
