Busting winter blues at California Tanning and Spa

Winter weighs heavily on our mood, like snow on leafless branches. Bent low, we wait for the spring sun to melt away our troubles and set us free. 'Tis the season that makes us yearn for a warmer place and wish for an escape. It's the perfect time for a vacation in California – California Tanning and Spa that is!

It's a time saving, cost cutting vacation, sure to cure your winter blues and keep you looking great all year long. Best of all, it's local! At a moments notice, you could be having fun with out the sun, getting your summer started before the season. Minutes from your home, there's all the rest, relaxation, and pampering you could possibly want, under one roof.

This great escape is owned and operated by a mother daughter duo. Since December, Theresa Gleeson and Theresa Marie Gleeson have been bringing the sunshine to Lancaster County. Their services melt stress and primp you to your prime. You'll leave feeling and looking your absolute best. "How we feel and look tomorrow lays in the wisdom of today."

Modern technology and quality care come together at California Tanning and Spa. The salon is equipped with state of the art tanning beds in individual rooms, complete with your choice of music, and a gourmet mint. Beds are arranged from back to front in increasing order: the longest time and lowest bulbs are located in the rear of the facility. The Mystique tan, literally a spray away, is recommended by doctors and a winner with those concerned about ultra violet rays. The Sundome and the Ergoline Classic Turbo bed are the latest additions. You're guaranteed an even tan after standing in the 48 bulb Sundome.12 minutes and 50 bulbs later, the Ergoline will have you looking like you just got back from the Islands!

Theresa, a nurse, determines the best tanning bed for each individual according to skin type, while skin care and waxing are handled by on staff estheticians. In addition, nail specialists offer manicures and pedicures, and on site nail technicians specialize in acrylic, gel, and nail art. A cosmetologist and a make up artist take care of hair and make up for any occasion. Massage therapist Danijela Vidovic, relaxes the body and mind with Swedish massage. Daily refreshments add to the top notch service at California tanning and Spa. Packages for wedding parties and birthday parties are available as well as membership and gift cards.

You don't have to wait for the seasons to change to get what you want because it never rains or snows in California Tanning and Spa.
