About the Collections

Villanova University's Digital Library initiative assembles, presents, and preserves digital collections that support the teaching and research of the campus and the global community of scholars. We work with faculty, staff and regional partners to select and develop resources that enhance access for a wide range of disciplines and audiences.

[Learn more about the Digital Library](#)

Contributions

We work with faculty, staff and regional partners to select and develop tools that enhance access to a wide range of resources for specific disciplines and audiences. Ranging from digitization of Villanova Dissertations and Theses, to digital preservation of faculty fulltext publications, the Digital Library actively solicits project ideas and materials for digitization from community members; please [contact the Digital Library Team](#) with your idea for a new digital project or use our [online submission form](#) to upload your work.
