MY SPECIFIC CONTRIBUTION TO THE DESIGN CONSISTED OF LAYING OUT THE PROGRAM OF THE LIBRARY, DETERMINING THE STEEL GRID STRUCTURE, MEANS OF EGRESS, AND HELPING WITH THE GEOMETRIC FORMWORK OF THE BUILDING. I ALSO WAS HEAVILY INVOLVED WITH THE DIGITAL AND PHYSICAL MODEL MAKING PROCESS. MUCH RESEARCH WENT INTO THE TYPE OF LIBRARY THAT THIS DESIGN WOULD FIT, WHERE OUR GENERATION SEES THE NEW LIBRARY DESIGN IN A DIGITAL AGE. THERE IS LESS FOCUS ON THE STACKS AND MORE ON KEEPING INFORMATION STORED IN A DIGITAL DATABASE.
