

Independence
Seaport Museum

**DOCK
DESIGN**

original design

fabrication

installation

Working for the Independence Seaport Museum, a group, including myself, was contracted to brighten and liven up a drab dock. The dock, which is utilized daily by owners of world class, multi-million dollar, hand-crafted sailing vessels, was an ordinary dock that brought little attention to the museum. The group and I used flags, as an attention grabber, along with the museums name, logo, and color scheme for easy identification.
