

FREE tyre examination for all makes of cars.

**A fraction of a millimetre
of tread depth can turn a legal tyre into a liability.
With a FREE tyre check from our Suzuki trained
technicians, you can be sure you're not putting your life - or
your licence - on the line.**

www.suzuki.co.uk

To make sure that your tyres are safe and legal, our skilled technicians will check the tread depth and examine the side wall of your tyres for damage. If your tyres are deemed to be illegal or unsafe we can replace them for you on the spot at very competitive prices.

At a tread depth of 1.6mm your tyre is 100% worn and it is a legal requirement to change your tyre.

At a tread depth of 3mm your tyre is 78% worn and we recommend you change your tyre.

At a tread depth of 4mm your tyre is 62% worn and we recommend you check your tyre every month for further deterioration.

Over a tread depth of 4mm your tyre is completely safe.

Make a point of having your tyres checked regularly and stay safe!
