

STOP animal abandonment!

Over 5 million animals are discarded every year.

Indigo Rescue is a volunteer animal rescue organization that launches and maintains programs to assist county animal shelters. Through partnerships formed with shelters, Indigo Rescue intervenes by taking animals who have run out of time in the shelter environment, rehabilitating them in foster homes before placing them in adoptive homes. The organization continues to develop and launch convenient and practical spay/neuter programs designed to encourage people to have their pets altered.
