

FOR THIS FURNITURE PROJECT WE WERE GIVEN A 4' X 8' SHEET OF 3/4" BIRCH PLYWOOD TO WORK WITH.

WE HAD TO THEN CREATE ANY TYPE OF TABLE WE WANTED, AS LONG AS IT FIT WITHIN THE SHEET.

WE DREW THE PIECES OF OUR TABLE IN AUTOCAD THEN SENT THEM TO A SHOP CALLED RAVENSWOOD STUDIO WHERE THEY CUT OUR PIECE WITH A CNC MACHINE.

ONCE THE PIECES WERE COMPLETE WE PICKED THEM UP AND HAD TO FINISH AND ASSEMBLE THE TABLE ACCORDING TO OUR DESIGN.

CNC MACHINE
