

Sensa radio spot (1 minute):

Tired of shopping for plus sizes, yo-yo dieting and feeling hungry all the time?

If you have a weight-loss problem, Sensa has the solution.

Sensa Weight-Loss System gives you the freedom to eat all your favorite foods and still lose weight!

David lost 93 pounds in just 8 months! "It's so easy. If you can season your food, you can lose weight with Sensa."

Diets, pills, and pre-packaged meals all offer temporary solutions, but they don't always give you lasting results.

Sensa provides a long-term solution to your problem by targeting the very cause of weight gain: overeating. Just sprinkle it onto everything you eat, and watch the pounds drop!

Sensa was developed by the nation's leading expert on the science of smell and taste, Dr. Alan Hirsch, a board-certified neurologist as seen on Dateline NBC, CNN and Good Morning America.

And in a clinical study, 1,436 men and women lost an average of 30.5 pounds in just 6 months!

Finally, a system that produces healthy, sustainable weight loss.

So what are you waiting for? Get Sensa, and get guaranteed results!
