

1. Take the Tool Organizer out of the case, put it on the Shoulder Strap.

2. Put the Shoulder Strap on the waist to receive a Belt set for all your tools.

4. When you finish your job, take out the Belt and tools and put it into Tool Case. The belt becomes a Shoulder strap again.

3. If you need more tools, add more pouches to the Belt, change the position of the Tool Organizer with simple clip in- clip -out.
