

# PHILIPS

## sense and simplicity

### Exploded View

This exploded model of my beard trimmer was produced using adobe photoshop.

Part Number	Part Name	Purpose
1	Base cover	To cover and support all major inner components
2	All electronics (including battery and motor)	To power the motor which, in turn, oscillates the razor-head
3	Connecting Clasp	To hold the base cover and razor-head compartment together
4	Razor-head compartment and motor casing	Encases the motor and houses the oscillating razor system
5	Collar	Twist to raise/lower the rising connector along 9 set heights
6	Rising Connector	Pushes the comb up or pulls it down
7	Comb	To glide through hair and over contours on the face
8	Top cover	Covers the inner components and wiring
