**CRUISING THE LAND OF THE MIDNIGHT SUN**

**ARCTIC CIRCLE • NORWAY'S NORTH CAPE • WHITE SEA • LAPLAND**

**With DANIEL JACOB, Vasco McCoy Family Professor of  
Atmospheric Chemistry & Environmental Engineering**

**JULY 17–27, 2015**

## HARVARD STUDY LEADER

Daniel J. Jacob is the Vasco McCoy Family Professor of Atmospheric Chemistry and Environmental Engineering in the School of Engineering & Applied Science and the Department of Earth & Planetary Science at Harvard. He was born in Long Island, NY, from French parents and grew up in Geneva, Switzerland. He received his B.S. (1981) in Chemical Engineering from the Ecole Supérieure de Physique et Chimie in Paris, and his Ph.D (1985) in Environmental Engineering from Caltech. He came to Harvard as a postdoc in 1985 and joined the faculty in 1987. He has taught classes in atmospheric science and climate at all levels at Harvard.

Jacob is known as a pioneer in satellite observations and mathematical modeling of atmospheric composition. His research focuses on understanding how atmospheric composition is affected by human and natural activities. It addresses a range of pressing environmental issues from air quality to climate change. Jacob has led NASA aircraft missions in many regions of the world, from the Arctic to Antarctica, and is a recipient of the NASA Distinguished Public Service Medal (2003). He has published over 350 papers and has trained over 80 Harvard Ph.D students and postdocs over the course of his career. He has mentored many Harvard undergraduates including a number of senior theses.

Jacob has a long-standing interest in Arctic pollution and climate change. He has led NASA aircraft campaigns to the Arctic to better understand how changes in atmospheric composition could be affecting climate in the region. He has studied the long-range transport of pollution (the so-called "Arctic haze" problem) and the accumulation of mercury in Arctic ecosystems. His lectures will describe how such an apparently pristine environment as the Arctic can be affected by pollution and climate change, and why we should care.

Other study leaders joining this program include John Meffert, Architectural Historian with the National Trust for Historic Preservation; and Christina von Nolcken, associate professor emerita in the Department of English Language and Literature at the University of Chicago.

*Scheduled guest speakers may be altered due to circumstances beyond our control. See General Information section.*

## THE ROMANTIC WHITE NIGHTS OF SUMMER IN THE LAND OF THE MIDNIGHT SUN

Each year at the height of summer, the warm, soft pastel sunlight of the White Nights lights the distant horizon. On display for just a few fleeting weeks, the natural phenomenon of the White Nights occurs only in the most northern climes where a prolonged twilight extends late into the night and the sun makes only a slight dip below the horizon before reappearing. During this brief respite from the long Arctic winter, snow drifts give way to emerald green meadows, the forests teem with birds flocking from the south and hazy orange and pink skies seemingly melt into the glistening northern seas. From ancient Viking storytellers to the great Russian novelists, the sublime beauty of this magical season has provided inspiration for many of history's greatest composers, poets and writers.

# CRUISING THE LAND OF THE MIDNIGHT SUN

July 17 – 27, 2015 (9 nights / 10 days)

WONDERS OF NORWAY PRE-PROGRAM OPTION

SOLOVETSKY MONASTERY, SOLOVETSKY ISLANDS, RUSSIA

## IN THE FAR REACHES OF NORTHERN EUROPE, NORWAY'S NORTH CAPE AND THE EXPANSIVE WHITE SEA STRADDLE TWO FRONTIERS—

the physical boundary between the Arctic and the European mainland, and the cultural boundary between East and West. Here, a spectacular wonderland of Arctic mountains and soaring fjords dotted with quiet fishing villages and medieval monasteries has remained virtually untraveled for decades, due in part to the region's vast natural barriers and the Iron Curtain that divided Europe for nearly 50 years.

On this rare and exclusive opportunity, discover the long-observed jewels of the Land of the Midnight Sun during the magical White Nights of Summer, when the sun seemingly never sets on the region's spectacular landscapes of fjords, bays, mountains and islands. Explore the living heritage and ancient cultural riches of Europe's far North, including the proud history of the Arctic pioneers and the ancient customs of the Sami, the indigenous people of Lapland, or Scandinavia.

Cruise from the port of Tromsø along the unspoiled coastline of northern Norway to the remote White and Barents Seas aboard the classic small ship *M.S. SERENISSIMA*. Accommodating only 90 guests and one of the very few passenger vessels to cruise the enigmatic White Sea, the classic *M.S. SERENISSIMA* offers you a unique experience.

**THIS IS A CO-SPONSORED PROGRAM:** University of Chicago, MIT and National Trust for Historic Preservation

# SCHEDULE BY DAY

FRIDAY, JULY 17

## U.S.

Depart the U.S. for Oslo, Norway's capital.

SATURDAY, JULY 18

## OSLO, NORWAY

Arrive in cosmopolitan Oslo and transfer to the five-star GRAND HOTEL OSLO, ideally located near the Royal Palace, shops and gardens. The remainder of the day is at leisure.

SUNDAY, JULY 19

## OSLO/CROSS THE ARCTIC CIRCLE/TROMSØ

Fly to Tromsø, the thriving port city located above the Arctic Circle, inhabited since the end of the Ice Age and known as the "Gateway to the Arctic." A major center for whalers, fishermen and walrus hunters, Tromsø was used by great polar explorers like Roald Amundsen, Umberto Nobile and Fridtjof Nansen as a starting point for their expeditions. See the Tromsø *Domkirke*, consecrated in 1861 and Norway's largest wooden cathedral, and visit the Tromsø Museum for fascinating exhibits on Norway's nature and culture, including the traditions of the Sami, an indigenous Scandinavian people culturally distinct from the Vikings. Across the Tromsø Bridge, see Tromsdalen's stunning Ishavskatedralen (Arctic Cathedral), often called the "opera house of Norway" and compared to the Sydney Opera House in Australia. Built in 1965, the A-frame church evokes a Sami tent as well as the iciness of a glacier. It is perhaps best known for the Victor Sparre-designed stained-glass windows set in the cathedral's triangular exterior, soaring 75 feet high.

This afternoon, embark the small classic ship *M.S. SERENISSIMA*. Attend the Captain's Welcome Reception tonight and, following dinner, savor the Midnight Sun's lingering light from the ship's deck. (B,R,D)

MONDAY, JULY 20

## HONNINGSVÅG FOR NORTH CAPE

Dock in the town of Honningsvåg this morning for the excursion to the northernmost point in Europe. En route, visit an authentic *lavvo*, the customary nomadic abode of the Sami, Lapland's indigenous people. Meet with local Sami and learn firsthand about their unique culture, including their native dress, traditional methods of fishing and semi-nomadic reindeer herding, and how they have survived for centuries in the harsh Arctic climate.

Arrive at beautifully stark North Cape, the final frontier of Arctic Europe. Near the iconic globe monument, stand at the edge of its dramatic cliffs and gaze across the water toward the North Pole for an "edge-of-world" sensation. Enhance your Arctic experience at the North Cape Hall, built into the side of a cliff, and tour the underground tunnel exhibitions detailing the North Cape's storied history.

Cruise the Barents Sea during the stunning Norwegian Midnight Sun and look for minke and humpback whales and harbor porpoises. (B,L,D)

TUESDAY, JULY 21

## MURMANSK, RUSSIA

Founded in 1916 and once the preeminent port of the Russian

whaling fleet and the base of Soviet naval operations in the Arctic, today Murmansk is the largest city north of the Arctic Circle. Its ice-free harbor is the base of a thriving fishing industry and Russia's only port with unrestricted access to the Atlantic Ocean and world sea routes.

On the panoramic tour of this honorary "hero city," a title awarded for outstanding heroism during World War II, see the Memorial to the Defenders of the Polar Region. Visit the modest Allied Cemetery, a memorial to American, British and Polish seamen who perished while participating in the massive joint effort by the Allies and then Soviet Union to convoy supplies into Murmansk via the Arctic waters. Near the shore, visit the bright-white, gold-domed Savior-on-the-Waters Church, built to honor perished seamen, and the adjacent "Kursk" memorial, dedicated to the submariners who died in peacetime. Tour the National Museum, which documents the region's exotic natural and cultural history with special exhibits devoted to the Sami and the Pomors, the first Russian settlers in the Polar region. Cruise the remote coastline and enjoy the majestic White Nights of Summer. (B,L,D)

WEDNESDAY, JULY 22

## CRUISING THE WHITE SEA/ CROSS THE ARCTIC CIRCLE

Cruise into the seldom-sailed White Sea and learn more about this rarely-visited region through our onboard experts. Be on deck to look for possible marine life. (B,L,D)

THURSDAY, JULY 23

## SOLOVETSKY ISLANDS

Inhabited since the fifth century B.C., this isolated archipelago became the

SAMI MAN WITH REINDEER

center of Christianity in the north during the 15<sup>th</sup> century after monks founded the Solovetsky Monastery. On the tour of this rarely visited UNESCO World Heritage site, learn more about the monastery fortress' storied history as one of Russia's holiest pilgrimage destinations as you walk along the monastery's impregnable stone walls and visit its many churches, chapels and common buildings through a network of covered passages and tunnels. Gain insight into its inglorious transformation into one of Russia's most notorious *gulags* (prison camps) during the era of Joseph Stalin. The history of the "mother of the *gulag*," which famously inspired Alexander Solzhenitsyn's *Gulag Archipelago*, is chronicled in the Solovetsky Gulag History Museum. (B,L,D)

FRIDAY, JULY 24

### ARKHANGELSK

Founded more than 400 years ago by Ivan the Terrible, Arkhangelsk's wooden architecture, typical of many northern frontier towns, left it vulnerable to a series of fires. Despite these misfortunes, Arkhangelsk's oldest extant building dates from the mid-16<sup>th</sup> century.

During this morning's city tour, view impressive monuments to

Peter the Great, the Great Patriotic War Memorial and visit the Museum of Fine Arts, which houses an exquisite collection of Russian art dating from the 14<sup>th</sup> century to the present. (B,L,D)

SATURDAY, JULY 25

### CRUISING THE BARENTS SEA/ CROSS THE ARCTIC CIRCLE

Enjoy a day at leisure while cruising across the Arctic Circle and into the Barents Sea, which supports a thriving ecosystem of marine life and some of the world's largest seabird colonies. Look for puffins, little auk, common guillemot, razorbill and black guillemot who feed within a 60-mile radius from their nesting cliffs along the Barents Sea. This evening, attend the Captain's Farewell Reception and savor a final opportunity to bask in the unforgettable beauty of the White Nights of Summer. (B,L,R,D)

SUNDAY, JULY 26

### KIRKENES, NORWAY/OSLO

Disembark the M.S. SERENISSIMA and fly to Oslo for an overnight stay in the deluxe RADISSON BLU AIRPORT HOTEL. (B,D)

MONDAY, JULY 27

### OSLO/U.S.

Transfer to the airport for your return flight to the U.S. (B)

JULY 14-18
