QATAR STEEL
We Make Steel Matter
Steel is strength of every economy
The steel industry is often considered as an indicator of economic progress. High quality steel is used widely in the construction of all modern architectures in the world.
At Qatar Steel we make sure to produce and deliver our customers high quality steel reinforcement bars by using top quality raw materials. It is our commitment that we look to contribute to the growth and prosperity of Qatar and to help building a solid steel structure for every economy in the region.
