

# LISTENING *and* UNDERSTANDING.

TWO THINGS THAT HAPPEN  
BEFORE WE TALK INSURANCE.

Yes, we are an insurance company.

But for over 35 years, we've helped  
Native Americans with their individual  
or group benefit needs as a trusted partner  
who understands the unique insurance  
requirements of the tribal community.  
That's because we currently represent some  
of the largest tribes in the Northwest.

We take pride in this experience, our  
client history and the services we offer.  
But, more importantly, we value the trust  
given to us to understand the needs of  
our clients so that they have the best  
plans and options at the best price.
