

“OVER THE 25 PLUS YEARS we have engaged Wm French they have responded not reacted to our changing requirements. For example, in a reflection of our global status we now bring employees from throughout the world to spend time with their careers in St. Louis. There is no end to the surprises and complications that present themselves with these transfers ranging from cultural issues to securing financing. I can’t imagine taking this responsibility on without the input and support from Wm French.”

—Mark Botterman
