

Introducing Shipman's  
**envirOPAQUE®**

*a high opacity, low cost offset/laser paper, that is environmentally, economically and print friendly.*

**Green benefits**

**This paper uses . . .**

- mechanical pulp and 50% less wood fiber than UFS (uncoated free sheet)
- 50% less green house gases and fossil fuels by using hydro-electricity (Green Production Process)
- has a sheet brightness of 90 attained through a process that is TCF (Totally Chlorine Free)

**ideal for many types of print jobs:**

- instruction manuals
- inserts
- direct mail
- forms
- book publishing
- financial printing
- workbooks
- flyers
- statements
- padded products

**Printing benefits**

- **EnvirOpaque** is ideal for any commercial printing job that traditionally uses uncoated offset
- Paper and mailing cost savings
- Lower cost per page (higher paper yield) (45# vs. 20/50 Bond Offset)
- High opacity at a lower basis weight
- Guaranteed performance on all high speed laser printers & inserting equipment
- Equal or superior print surface and caliper when compared to 20# laser MOCR or 50# Offset

**Save \$ and the environment,  
with one smart choice of paper.**

**envirOPAQUE®**  
AN ENVIRONMENTALLY CONSCIOUS PAPER

- printed on 45 lb. EnvirOpaque Offset/Laser •

**ENVIROPAQUE PAPER**

A new, "greener" paper, under the name EnvirOpaque, was added to our stock list, and promoted to customers as an *Environmentally Conscious Paper*, that will also save them money.

**envirOPAQUE®**  
AN ENVIRONMENTALLY CONSCIOUS PAPER
