UNICOR METAL
PRODUCTS CATALOG

UNICOR PRODUCTS

UNICOR Offers a Wide Range of Industrial Products

It's easy to find products that work best for you, such as...

- Lockers for all personnel/staff needs
- Custom-fabricated products (prototype a product to your exact specifications)
- Ready-to-assemble shelving in an outstanding range of dimensions and sizes, shipped with fasteners for easy assembly with hand tools.
- Component parts, such as bins, drawers, and doors, that instantly increase the functionality of shelving.
- Racking, catwalks, and mezzanines for warehouse operations.
- Metal cabinets and lockers that are economical and durable.
- Depending on your project's complexity, design specialists can provide guidance over the phone, prepare sketches and estimates from a floor plan you provide, or even visit your site to develop a layout — for a nominal administrative charge.

The ultimate security: a full guarantee. UNICOR is committed to meeting your highest standards for performance. If at any time a product does not meet your expectations, UNICOR will promptly repair or replace it at no expense to you.

We invite you now to get to know UNICOR's quality metal products and the flexibility and versatility they offer. If you have any questions, please call UNICOR's Customer Service Center at 800 827-3168.

If you want a sales representative to call you...

If you need a quote...

If you need a design layout...

If you want assembly or installation of a metal product...

Just call UNICOR at 202 305-3707 or 859 225-4824 for the local contact nearest you.

LETTER TO OUR CUSTOMERS

UNICOR has been manufacturing top quality, durable metal products for more than 50 years. We are proud of our capabilities and are ready, willing, and able to put them to work for you.

We are convenient and easy to use. Since UNICOR is a government-established source, you need not waste valuable time with a prolonged procurement process. You can come directly to us. Additionally, you don't need a firm specification before you talk with us. We may even be able to suggest solutions to your needs.

**We are
committed to
your complete
and total
satisfaction**

All you have to do is give us a call.

This catalog is not intended to be all-inclusive. Rather, it is designed to give you an idea of our diverse product line. If you don't see exactly what you need, contact us and we will gladly

work with you to prototype a product to your exact specifications.

Your complete and absolute satisfaction is our top priority. We are committed to this goal. In fact, we are so sure you will be satisfied with our products and services that we offer the following "Escape-Proof" Guarantee.

We take great pride in teaching a good work ethic and marketable job skills. As a result, we produce high quality goods and services for our customers. We are committed to your complete and continual satisfaction. If, at any time, an item we have provided does not entirely meet your expectations, we will cheerfully and promptly repair or replace it, entirely at our expense.

LET US SHOW YOU WHAT WE CAN DO FOR YOU.

TERMS AND CONDITIONS

The Customer Service Center

Contact the FPI Customer Service Center for any questions or assistance regarding the information in this price list. Our business hours are 7:30 a.m. to 6:00 p.m. (EST), Monday through Friday (excluding federal holidays). Our phone number is **800 827-3168**.

Order Acknowledgment

FPI acknowledges every order. Orders are accepted, billed, and invoiced based on the information in this written order confirmation. Should you note any discrepancy, please advise us immediately. Your order acknowledgment indicates a due date when your product will arrive. In the event your products are manufactured earlier than scheduled, we will ship them upon completion, unless otherwise specified. Project level orders will be coordinated through our Project Managers.

Order Modifications

Modification to your purchase order will be accepted up to four weeks prior to the due date indicated on your order acknowledgment. However, if the revision results in a change in product availability, a new due date may be set by FPI. Such due date adjustments may be for your full purchase order, whether or not the specifications of all line-items on it are modified. All purchase order modifications are acknowledged in writing, including the annotation of any adjusted due date(s). Purchase order cancellations may result in a re-stocking fee.

Standard Lead Time

Typical lead time for product delivery is 90 days after receipt of your order.

Product Delivery and Pricing

We take both FOB Origin and FOB Destination orders. All products are shipped via surface transportation. On FOB Origin orders, title/product responsibility passes to the customer at the time of shipment. You may arrange your own transportation on FOB Origin orders, coordinating with FPI accordingly. Otherwise, your own order will be shipped by common carrier at your expense.

On FOB Destination orders, title/product responsibility passes to the customer upon delivery to the dock of the designated point of delivery. Freight charges are included in the product prices listed with a FOB Destination column.

Contact the Customer Service Center for destination prices where none are given. Such destination pricing for delivery outside the continental United States must be negotiated based on the freight rates at the time of shipment.

Services such as layout design, storage, inside delivery, and installation, and off-loading are not contained in this price list. Contact a technical representative at 202 305-3707 or 859 225-4824 for a quote on these services.

Geographic Coverage

All shipments for the continental United States include the 48 contiguous states and Washington, D.C.

Special Note on Overseas Shipments

All FOB Destination shipments are prepaid to the Port of Embarkation. All freight and handling charges beyond the port of embarkation are the responsibility of the local government purchasing facility, unless other arrangements are made through FPI. The freight charges for deliveries to Alaska, Hawaii, and foreign countries will be negotiated based on freight rates at the time of delivery. There is an additional 10% crating charge for orders not shipping to the 48 contiguous states. All shipments must include a physical address.

Special Packaging

Standard packaging varies per individual product. FPI will accommodate your special packaging requests; however, an upcharge may apply. Contact the Customer Service Center for more information.

Shipment Claims

FPI products are packaged to comply with carrier requirements. All shipments should be inspected by the consignee before acceptance. The delivering carrier should be requested to record any damage or shortage of items shipped. If any shortages are discovered, please notify the FPI Customer Service Center immediately.

Shipping damage and shortage claims must be filed with the carrier within 15 days of delivery. This applies to both FOB Destination and FOB Origin shipments. Carrier liability ends after 15 days for shipping damages or shortages.

Concealed Damage Claims

Claims for concealed damages must be filed with the carrier within 15 days after the delivery of goods. This applies to both FOB Destination and FOB Origin shipments. Carrier liability ends after 15 days for concealed damages.

Neither FPI nor the carrier will be responsible for damages if shipments are left unopened and/or claims are not filed within 15 days.

Product Storage

If necessary, FPI may store products at the factory at no expense to you for a period not to exceed 30 calendar days; however, such storage is predicated on the availability of our warehouse space at the time of need.

If FPI storage space is not available, or if you require storage in excess of 30 days, we will assist you in finding commercial storage alternatives at current market rates, at your expense.

Customer-Delayed Deliveries

Please notify the Customer Service Center at least two weeks prior to the confirmed due date when you cannot receive delivery of goods by that scheduled date. We will delay the delivery at your request; however, after 30 days of such delay, you will be invoiced for the subject products whether or not delivery is extended beyond the first 30 days.

FPI may allow up to two weeks for shipping. Therefore, if you do not request delayed delivery at least two weeks prior to the confirmed due date for arrival of your shipment, you may incur additional handling costs.

FPI will bill you for such handling costs if you refuse receipt of the goods, or request delayed shipment within less than two weeks prior to the due date on your order acknowledgment.

Product Returns

All product returns must be coordinated in advance with the FPI Customer Service Center. All freight or express service charges must be prepaid on return shipments.

Product returns may be subject to your being invoiced for additional handling/restocking fees. FPI will determine and notify you of such charges upon receipt and inspection of the returned goods.

Order Status

Call the Customer Service Center to obtain status of your order during order processing or the product and shipment/delivery of goods. We will give you the status based on your purchase order number and/or the FPI work order number on your order acknowledgment.

You may also access your order status by clicking on the customer service icon on our website at: www.unicor.gov.

Invoice Payment

Payments from government agencies should be addressed to:

FPI - FPI
P.O. Box 371736
Pittsburgh, PA 15252-7736

Payments from private sector parties should be addressed to:

FPI - LEX
Accounts Receivable
P.O. Box 11670
Lexington, KY 40583-3640

All general billing or specific invoice questions should be directed to the FPI Customer Service Center at **800 827-3168**.

Product Warranty

FPI guarantees all industrial products will be free from defects in materials and workmanship. If at any time an item we have provided does not meet your expectations, we will repair or replace it at our expense.

MANUFACTURING CAPABILITIES

Manufacturing Capabilities

UNICOR's metals factories offer a diverse array of metal fabrication capabilities. The broad range of equipment styles and capacities allows the metal factories to accommodate a wide variety of products from short run custom projects to multiyear contracts. Teamed with the expertise of the Product Support Center, the Industrial Products Group can work with your technical experts from product design through manufacturing start-up. As your partner in the Federal Government, we can work with your team to quickly bring products on line without the cumbersome restrictions of the solicitation process. Credit card and EDI capabilities are also on line at FPI to make working together as simple as possible. Below is a brief summary of our current manufacturing processes.

Stamping

Punch press capabilities range from turret presses capable of producing 1000 parts per hour to 500-ton presses with 10-foot beds. Part sizes range from 3" braces through shelving uprights up to 16 feet long. Metal thicknesses from 24-gauge (0.024) through 10-gauge (0.135) are commonly used. Although low carbon steel is the most frequently used material, aluminum, stainless steel, and other metals can also be fabricated. Automatic coil feeders are used where appropriate to maximize production efficiency. A variety of tooling options are available including permanent tooling, universal tooling, and steel rule dies. The proper tooling approach is selected based on complexity, production volume, and budget considerations. CNC turret presses are available for short to medium runs where permanent tooling is not feasible due to lead time or cost constraints.

Forming

Every UNICOR metal factory is equipped with a wide range of mechanical and hydraulic press brakes to handle most metal forming needs. Capacities up to 300 tons are available with 12-foot beds and CNC back-gauging for outstanding accuracy and consistency. A variety of standard tooling configurations are in stock, and custom tooling can be developed in-house for special shapes. Roll forming machines with integral punch presses and flying cut-off are also available for high volume requirements in items such as pallet rack uprights and beams.

Machining

Flexible CNC turret lathes and machining centers can quickly turn designs into finished products. By integrating the CNC machines with computer-aided drafting and design stations, part designs are quickly and accurately converted from concept to reality. Carbon steel, stainless steel, and aluminum are routinely used; and other metals can be processed as well.

Welding

Resistance welding, MIG, and TIG welding expertise are on line at all UNICOR metal factories. We routinely handle carbon steel, stainless steel, and aluminum. American Welding Society procedures are utilized and certification of welders is available. Resistance welding is used for sheet steel in the range of 24-gauge (0.024") to 16-gauge (0.060"). Arc, MIG, and TIG welding are used for heavier gauge plate and tubing.

Coating/Finishing Systems

The modern powder coating systems used by UNICOR provide an attractive and durable finish. First, a multistage wash system prepares the parts for painting. A phosphate coating for improved paint adhesion is included in the wash cycle. Parts are then routed through a dry off oven before entering the powder paint booths. Electrostatic paint application ensures a uniform coating even in hard to reach areas. The finish is then cured to the required gloss and hardness in carefully controlled ovens. The standard coating is an epoxy base; however, other coatings including polyesters, acrylics, and hybrids are available. Numerous standard colors are available, and we can match FED STD 595A COLOR CHART.

Tool and Die

Each UNICOR metal factory is equipped to build and maintain its own tooling. In addition, the Product Support Center provides expertise in tooling design and fabrication for complex projects requiring the use of CNC machining centers as well as electrodischarge machining (EDM). From complex progressive dies to universal tooling, UNICOR's tool and die staff have the expertise to select the most cost effective tooling for your program.

Services

To support our line of material handling products such as shelving and pallet racks, UNICOR offers complete layout and bill of material development including site visits if required. We can either use your layout or develop the layout from building measurements. UNICOR staff and inmates can quickly turn the floor plan into a detailed quotation and layout. Complete installation services are also available nationwide. In addition to assembly and installation of shelving and pallet racks, UNICOR can provide floor preparation and minor repair. We can also provide relocation service to move existing material handling equipment from one facility to another. Our expert installation crews will make sure your facility not only looks good but is ready to go to work on schedule.

UNICOR Metal Factory Locations

El Reno, Oklahoma: The El Reno facility is located about one half hour west of Oklahoma City. Its primary product lines are pallet racking, institutional beds, and casters. In addition to a variety of stamping, forming, and welding machinery, the El Reno factory is equipped with two large roll forming machines used to produce pallet rack beams and uprights. Two powder paint lines are available to paint parts up to 20 feet in length.

Lewisburg, Pennsylvania: The Lewisburg factory is located about one hour north of Harrisburg and is housed within the walls of a United States Penitentiary. This facility is primarily dedicated to producing a variety of metal stampings and welded assemblies to support other UNICOR factories. Other product lines include lockers, cabinets, and shelving. Lewisburg is equipped with a very versatile mix of stamping, forming, and welding machinery and has two powder paint lines capable of handling parts up to 54" by 84".

Pekin, Illinois: The Pekin factory is located about 15 minutes south of Peoria in central Illinois. This facility is unique compared to other UNICOR metal factories due to its capabilities in machining as well as stamping and forming. Its equipment includes a CNC turret lathe with automatic bar feed for parts up to 10" in diameter. A baked enamel paint systems allows for quick paint change-out for shorter production runs. This factory is also equipped with a new high speed turret press. Without the investment in expensive hard tooling, the turret press can fabricate prototypes or production runs of complex parts in a wide variety of sizes and metal gauges.

Terminal Island, California: This facility is located south of Los Angeles and produces shelving, lockers, and tables. The factory has substantial capability in stamping and forming, including press brakes up to 300 tons. Arc MIG welding and resistance welding of carbon steel are routinely performed, and two powder paint lines provide outstanding finishing capability.

We are very proud of our facilities and would welcome an opportunity to provide you with a tour of any one of the above factories. For more information, please call 202 305-3707 or 859 225-4824.

HOW TO ORDER

4

1

Call us toll-free at 800 827-3168.

Please have your credit card information ready if you are going to charge your purchase.

2

Fax your order to 859 254-9048.

Be sure to include all credit card information.

If you are paying by credit card, please include your credit card information on the order form. Your personal information will be kept confidential. Only UNICOR supervisory staff will process and ship credit card orders.

If at any time when ordering you have a question, or need additional information about the products or services contained within this catalog, please call 202 305-3707, 859 225-4824, or 405 262-4875 ext. 391 for assistance.

It's As Easy As ...

3

Mail your purchase order to:

UNICOR Customer Service Center
P.O. Box 11670
Lexington, KY 40577-1670

4

Order on the Internet:
www.unicor.gov

Click on Industrial Products on our home page for a list of most of the items in this catalog, or enter your stock number (product number) in our shops department to order your products. Have your credit card ready.

HOW TO USE THIS CATALOG

1

2

SHELVING Steel Shelving

Whether you choose our ready-to-assemble shelving packages, component parts for custom shelving, or the flexible clip-type shelving, UNICOR has the shelving you need. You'll find our merchandise strong and durable.

It's as easy as 1, 2, 3, 4 to specify your shelving. Refer to the following page for a graphic pictorial of each step.

1

Select from four styles and types:

- Nut and Bolt
- Clip-Type
- Wide Span
- Speciality

Each style offers a wide range of applications with many accessory items to maximize your storage requirements.

2

Choose a size:

UNICOR shelving is available in a wide range of depths, widths, and heights.

3

Determine a configuration:

UNICOR accepts customer-supplied layout and designs or offers assistance based on your available floor space. UNICOR staff will assist you in the selection of the style that best fits your requirements and will provide complete design and layout services of your storage areas, if requested.

Call 202 305-3707, 405 262-4875 ext. 391, or 859 225-4824 for assistance.

4

Determine load-bearing capacity:

UNICOR shelving is available in three classes of strength. Each class has a different weight capacity.

SHELVING Steel Shelving Nut & Bolt Accessories

Flanged Bin Divider

Full height dividers are used to create small, individual storage bins within the shelving units, while angle and sliding dividers subdivide the shelf surface. Full height and angle dividers are fixed in place; sliding dividers are easily moved to accommodate changing storage needs.

Stock No.	Weight (LBS)	Dim. (D/W)	Price
SH9002	2.8	12" x 10"	\$2.85
SH9003	3.8	18" x 10"	\$2.80
SH9004	5.8	24" x 10"	\$2.75
SH9005	6.8	30" x 10"	\$4.75

The new 2001 Metals Catalog has been redesigned and simplified. Our customers will now be able to place orders directly from this catalog without having to refer to a separate Price List. Sizing and specifications of products have been clearly explained. All the necessary information can be had at a glance, in one location. We think you'll be very pleased.

- 1.** The new 2001 Metals Catalog is divided into six product line groups; Storage, Work Benches and Tables, Steel Shelving, Industrial Racking, Food Service, and Additional Products.
- 2.** The pages in each group are color coded and titled for clarity.
- 3.** Opening pages have information specific to each product line group.
- 4.** Interior pages of these sections are designed to make ordering simple.
- 5.** Descriptive copy and color photos are visually linked together with arrows.
- 6.** Charts contain ordering, shipping, and pricing information.
- 7.** Colors available for any given product are represented on each page along with its 2-digit color code.
- 8.** Color choices are made by the customer and the 2-digit color code must be added to the end of the stock number when ordering.
- 9.** Other specific information, such as technical support, custom work, and load bearing capacity, can be found in the tinted color panels.
- 10.** Web site and toll-free number.

STORAGE

UNICOR manufactures a multiple range of storage products. Our construction is sturdy, durable, and secure. There are a vast array of colors available and handle and door options to meet all of your storage needs.

UNICOR Offers a Wide Range of Storage Products

Wardrobe and Utility Storage Cabinets

UNICOR offers a wide range of flexibility and choice in the wardrobe and utility storage cabinets line. The applications for which these products can be used is endless, from the front office to the warehouse and barracks. Institutional wardrobes and storage lockers have been a UNICOR specialty for years.

Sports Lockers

From personal storage lockers to sports lockers, UNICOR has the styles and options you need. Choose from standard widths of 12", 15", 18", and 36"; configurations ranging from single-door units to 16-person sports lockers; and options like sloped tops and bases that make your lockers right for your space. UNICOR lockers are made of sturdy 24-gauge steel, with 22-gauge tops and bottoms and 16-gauge doors. Lockers are available assembled or unassembled.

Internet Orders:

www.unicor.gov

Wardrobe and Utility Storage Cabinet Door Styles:

solid door

perforated door
(available on lockers only)

louvered door

Handle Types:

- *lever handle*
 - *squeeze latch handle*
 - *lift handle*
- (handles not shown)*

Office Storage

UNICOR has a complete line of filing storage products—from vertical to lateral, from stationary to mobile. There are standard offerings as well as design- your-own.

The office storage products are not available in this catalog. They can be found in the Opus Metals Furniture Catalog (CAT#P600 and CATPP600). Just call the Customer Service Center at 800 827-3168 to request.

STORAGE

Wardrobes and Cabinets

87" "Marine Corps" Locker (Wardrobe)

Originally designed for the Marine Corps, this two-door, 22-gauge wardrobe features upper and lower shelves, full-width coat rod, four hooks, reinforced doors, towel bars on each door, padlock hasp, hat shelf, and label holder mounted on the door. It has tamper-proof bolts. Equipped with lift-type handles with padlock eye for added security (padlock not included). An optional security lock box made of 11-gauge steel can be bolted in place into the lower storage area with tamper-proof bolts. The locker is shipped fully assembled. Size: 36"W x 24"D x 87"H.

Double-Door Cabinet (Wardrobe)

This wardrobe is an excellent choice for storing clothing and personal items. It is made of heavy 22-gauge steel with 16-gauge double doors. The four removable shelves on the left side are adjustable on half-inch centers. The wardrobe also comes with a center half-inch partition, a full-width coat rod, hat shelf, two towel bars, two clothes hooks, a label holder mounted on the door, and an inside mirror on the right door. Comes with squeeze latch locking hardware with a two-point latch mechanism. It has two rear legs. The double-louvered doors are designed for padlock use. It is shipped unassembled. Size: 30"W x 21"D x 78"H.

louver door/squeeze latch handle

84" Drawer Locker (Wardrobe)

Providing all the comforts of home, this 3-drawer, 22-gauge steel wardrobe includes two small drawers and a full-width drawer for small items. Drawers operate on four adjustable rollers or glides. Wardrobe section has a coat rod and two coat hooks, with a separate shelf above. Double 16-gauge steel doors are louvered for ventilation. Equipped with lift-type handles with padlock eye for added security (padlock not included). Included are label holders and a number plate. Shipped unassembled; assembled drawer units shipped separately. Size: 36"W x 24"D x 84"H.

Sports Lockers

SPORTS LOCKERS

From personal storage lockers to sports lockers, UNICOR has the styles and options you need. Our lockers are made of sturdy 24-gauge steel, with 22-gauge tops and bottoms and 16-gauge doors. Our sports lockers are manufactured with a variety of door styles, handles, locks, and other accessories.

Door Styles

Choose from standard, high-privacy louvered, or solid openings, or opt for the greater ventilation of louvered or perforated patterns — especially good for use in fitness centers.

Handles and Locks

Take your choice of recessed handles with two-point latching and key locks, or rotating handles with three-point latching or standard padlock hasps. Keyed units can be provided with an optional master key (available on single and two-tier only). Other lockers offer padlock only.

Handles and Locks:

- recessed handled two-point latch
- rotating handles with three-point latch
- standard padlock hasp

(handles and locks not shown)

Sports Lockers Accessories

Sloped Tops

Keep your locker tops free of extra belongings and dirt with these sloping tops for single-tier lockers or upper units of multi-tier lockers. Use rear supports to attach.

Closed Bases

These base pieces keep dust and debris from collecting beneath lockers. Front and end bases easily attach to lockers and are available for all lockers with support legs.

WORK BENCHES / TABLES

18

Work Benches

UNICOR work benches are the ideal solution for standing workstations that require ample storage of supplies or work material. The heavy-duty construction provides an extremely solid base for any type of assembly operation.

Components or Complete Units

These work benches provide a secure and stable work surface for work of all types, and may be ordered by component parts or as a complete unit shown on this page.

Internet Orders:

www.unicor.gov

UNICOR modular work benches offer the stability of a rock-solid work surface with the addition of secure storage below for tools, instruments, or other essentials. A great feature is the flexibility with which they can be configured. For more information on configuration and custom applications, contact our technical representative at 202 305-3707 or 859 225-4824.

work bench with metal top

Platform-Topped Work Benches

Get back to basics the smart way, with UNICOR's sturdy platform-topped work benches. Steel-only tabletop materials are used, and you can accessorize with drawers, back and end stops, risers, lower shelf, or electrical outlet strips. Then choose a leg design: fixed or adjustable, in the basic height you require. Adjustable legs range from 30" to 36" high, and adjust on 1" centers. Legs are pre-punched for tabletop, horizontal stringer (stabilizer), floor anchoring, and shelf attachments, and have knockouts for electrical outlets. Available in sizes from 60"W x 28"D x 28"H to 72"W x 34"D x 34"H.

Basic Work Bench

Select to the height you need or customize to any application with the addition of accessories. Leg adjustments, height adjustment sleeve, floor plate, height adjustment sleeve with caster base, rigid caster, swivel caster with brake, back/end stops.

TABLES

UNICOR brings you tables that are tops in form and function. A choice of laminate tops are available to beautifully complement any surrounding. Quality craftsmanship and attention to detail set these tables apart from the crowd. Ample surface space lets you work or play in comfort. With UNICOR, you not only get an excellent product and value, but you get a company that caters to your needs. Table base color is black; other colors available by special order.

Logo Table

Logo tables are unique tables that can display your organization's seal embossed on a 24" or 30" diameter wooden top. Be proud and display your organization's seal. The standard seals are: Navy, Marine, Army, BOP, Coast Guard, and Air Force. Seals can be custom made per your specifications at an additional first-run cost.

CAFÉ TABLES

UNICOR makes these table and seating combinations with durability, flexibility, and beauty in mind. They're constructed with sturdy metal frames in your choice of bolt-down legs for permanent attachment to the floor or adjustable glide models, featuring chrome-plated glides with nylon pads for smooth nonscratch movement. Tabletops are made of thick, high-grade particle board permanently bonded with high-pressure laminate. The fiberglass seating is designed for years of easy-care maintenance and is available in your choice of flat disc style or molded highback shells. The choice is yours: You decide the table size, leg style, and chair style you prefer. Then choose the color metal frame you want, as well as the tabletop laminate shade. The wide range of seating colors gives you the opportunity either to brighten dining and lounge areas with vivid colors or create a relaxed atmosphere with neutrals.

How To Select Steel Shelving

1

Select from four styles and types:

- Nut and Bolt
- Clip-Type
- Wide Span
- Speciality

Each style offers a wide range of applications with many accessory items to maximize your storage requirements.

2

Choose a size:

UNICOR shelving is available in a wide range of depths, widths, and heights.

Internet Orders:

www.unicor.gov

Whether you choose our ready-to-assemble shelving packages, component parts for custom shelving, or the flexible clip-type shelving, UNICOR has the shelving you need. You'll find our merchandise strong and durable.

It's as easy as 1, 2, 3, 4 to specify your shelving. Refer to the following page for a graphic pictorial of each step.

3

Determine a configuration:

UNICOR accepts customer-supplied layout and designs or offers assistance based on your available floor space. UNICOR staff will assist you in the selection of the style that best fits your requirements and will provide complete design and layout services of your storage areas, if requested.

Call 202 305-3707, 405 262-4875 ext. 391, or 859 225-4824 for assistance.

4

Determine load-bearing capacity:

UNICOR shelving is available in three classes of strength. Each class has a different weight capacity.

SHELVING

Steel Shelving Specifications General Information

All shelving complies with GSA requirements and Federal specifications.

Uprights (standard)

All uprights (corner posts) are made from structural steel angles 1" x 1³/₄" x 1/8" 10-gauge thick. Uprights have 5/16" diam. holes on 1" centers that span the entire height of the post for shelf spacing and adjustment. Cross-strap braces, angle-sway braces, and partitions attach to the upright. Four uprights are required for each unit; heights available from 36" to 195". Bolts, nuts, and braces do not obstruct the full adjustability of the shelves.

End Panel/Partition

Made from 22-gauge steel (standard) used at ends of shelving units and at intermediate joints in rack formations. Mounting holes are spaced on 1" centers to match mating holes in post.

Back Panel/Partition

Made from 22-gauge steel (standard) used at back of shelves in single-faced units and between double-faced units. Mounting holes are spaced on centers to match mating holes in post, with an additional vertical row of holes in the center for attachment to shelves.

28

Beaded Uprights (clip-type) for Lighter Loads

Made from 14-gauge steel. Comes with rectangular mounting holes the entire length of the post to receive shelf clips, permitting adjustment of shelf height in 1 1/2" increments. Additional holes are provided as may be required for attachment of all other component parts of shelving units whenever such components attach to posts (shown on page 46).

Angle-Sway Braces

Made from 13-gauge steel. Each angle leg is 4¹⁵/₁₆" long x 1³/₁₆" wide. The angle sway brace reinforces open type shelving and provides clear, unobstructed shelf openings. Use with heavy or extra heavy loads on standard shelving.

Clips

Used on clip-type shelving; clips are one-piece construction and are easily positioned without any tools. One clip is hooked into each corner post, and first one side and then the other side of the flanged shelf is tilted into place.

Flush Bars/Storage Drawer Guides

Made from 22-gauge steel, used at shelf ends (2 per shelf) to prevent storage drawers, boxes, etc. from catching behind uprights.

Standard Shelves

Shelves come in one of four categories: Class 1, 1A, 2, and 3, depending on load requirements. Plain, Class 1 shelves are made from 18-gauge steel flanged down on all sides with $\frac{13}{16}$ " holes at sides and ends of assembly to uprights, and $\frac{5}{16}$ " holes spaced 2" apart on the surface for attachment of optional bin dividers. Class 1 shelves have no reinforcement angles. Reinforcement angles sold separately. See shelf load capacity on page 25.

Flanged Bin Dividers

Made from 20-gauge steel, with matching holes for top and bottom flanges for securing to shelf bin divider holes with bolts or self-inserting clips. Dividers attach to the top and bottom of the shelf for heavy-duty use. For heights 6" through 10", front edges are folded back flat. Heights 12" to 24" have the front edge formed into a bead. All rear edges are flanged $\frac{1}{2}$ " at right angles. Not for use with Class 3 shelving.

Drawer Insert Units

For use in 36" wide shelving units with depths of either 12" or 18". Drawers have two dividers each, adjustable on 1" centers, and have provisions for label inserts $\frac{11}{32}$ " high. Extra dividers can be purchased separately. Drawers have stops to prevent falling when fully extended.

Cross-Strap Braces

Made from $\frac{1}{8}$ " thick steel strap $\frac{3}{4}$ " wide with $\frac{5}{16}$ " holes at each end for bolting to post. Units with heights of 8'3" and higher should use two pairs on each side and back. Cross-strap braces are intended for lighter loads only. For heavy or extra heavy loads, angle-sway braces are recommended.

Angle-Type Bin Divider

Made from 18-gauge steel, with matching holes in bottom flange for securing to shelf bin divider holes with bolts and self-inserting clips, for division of shelf openings into smaller compartments.

Label Holders

Used for shelves 24" to 48" wide and made from 22-gauge steel, 1" high with edges turned back to accommodate $\frac{15}{16}$ " label. Two holes at each end and one in center for fastening to matching holes in shelf face with self-inserting clips.

Bin Fronts

Made from 18-gauge steel, for use with closed shelving units to retain small articles on shelves. Has holes for securing to front of shelf and for attaching label holder.

Storage Drawer

Made from 20-gauge steel, with combined pull handle/label holders for $1\frac{1}{2}$ " x 3" cards. Each drawer has slots for dividers on 1" centers and stops to prevent drawers from falling when fully extended.

Base Strip or Closure

Made from 18-gauge steel (for standard units) and 22-gauge (for clip-type units) for closing the space between the bottom shelf and the floor.

SHELVING

Open Steel Shelving Nut & Bolt

Quality Shelves

With UNICOR steel shelving components, you can easily construct custom storage configurations that make the best use of your space. A basic unit is self-standing and includes all shelves and corner posts using angle-sway braces. A rack of units combines two or more units side by side or back to back. Standard units have shelves spaced 12" apart on centers, adjustable on 1" centers throughout the height of the units. All components comply and exceed GSA and Federal Government requirements.

For special configurations and sizes not listed and installation/off-load needs, call 202 305-3707, 859 225-4824, or 405 262-4875 ext. 391.

Closed Steel Shelving

Closed shelving provides a more finished appearance and reduces the risk of items slipping through open sides. Shelving consists of one initial unit plus one or more additional units. The additional units are identical to the initial unit but have no partition or end panel. Top and bottom shelves are fixed and other shelves are available on 1" centers. Using components listed on pages 36-49, you can build UNICOR shelving units into many configurations, and use accessories described on the next few pages to increase functionality. Detailed component listings are also available from our Customer Service Center at 800 827-3168, 202 305-3707, 859 225-4824, or 405 262-4875 ext. 391.

SHELVING

Nut & Bolt Build Your Own or Expand Components

Corner Post or Upright

Made from structural steel angles 1" x 1/8" thick, with 5/16" diameter holes on 1" centers, span the entire height of post for shelf spacing adjustment. Four post or uprights required for each unit. Heights: from 36" to 171". Other sizes available on request.

End Panels/Partitions

Made from 22-gauge steel (standard) and 24-gauge steel (clip-type), end panel partitions are used at ends of shelving units and at intermediate joints in rack formations. Mounting holes are spaced on 1" centers. Furnished for units 12" through 36" in depth. Panels for shelving 18" deep and more have an additional vertical row of holes in the center for attachment to shelves. Panels for ends of the units extend to the floor to enclose the base. Available in heights 39" through 111".

Back Panels

Made from 22-gauge steel (standard) and 24-gauge steel (clip-type), back panels are used at the back of shelves in single-faced units and between double-faced units. Mounting holes are spaced on 1" centers with an additional vertical row of holes in the center for attachment to shelves. Panels extend to floor to enclose base. Furnished for units in widths of 24" through 48" and heights from 39" through 111".

SHELVING

Nut & Bolt Build Your Own or Expand Components

Plain Shelf

Shelves come in one of four classes: Class 1, 1A, 2, and 3, depending on load requirements. Plain shelves are made from steel flanged down on all sides $1\frac{3}{16}$ " , with holes at sides and ends for assembly to uprights, and $\frac{5}{16}$ " holes spaced 2" apart on the surface for attachment of optional bin dividers. Shelves are available in depths of 12" through 36" and widths from 24" through 48". (Reinforcement angles sold separately.)

Stock No.	Description	Weight (LBS)	Dim. (W/D)	Price
SHV3015 □□	Plain Shelf	17.7	30" x 36"	\$11.50
SHV3016 □□	Plain Shelf	9.8	36" x 15"	\$8.00
SHV3017 □□	Plain Shelf	17.8	36" x 30"	\$12.00
SHV3018 □□	Plain Shelf	21.0	36" x 36"	\$13.25
SHV3019 □□	Plain Shelf	9.0	42" x 12"	\$8.00

UNICOR's shelf styles can be used with standard or clip-type shelving applications.

SHELVING

Nut & Bolt Build Your Own or Expand Components

Ledge Shelf

Made from 16-gauge steel, ledge shelves have a finished appearance and smooth working surface. They come with two front and two rear brackets already welded on that are used to attach the shelf to the unit. Available in depths from 18" through 36" and widths from 24" through 42", the shelf is flanged 2" on the edge.

Angle Sway Brace

Made from 13-gauge steel. Each angle leg is 4¹⁵/₁₆" long x 1³/₁₆" wide. The angle sway brace reinforces open type shelving and provides clear unobstructed shelf openings. Use with heavy or extra heavy loads.

Reinforcing Angle for Class 1A Shelf

A Class 1A shelf is reinforced with a structural steel angle in front for light shelf loads. One reinforcing angle is required in front. Shelf and reinforcing angles are priced separately. Size of brace is $\frac{1}{8}$ " x 1" x 1" x width of shelf. See shelving capacity chart on page 25.

REINFORCING ANGLES/BRACES

Stock No.	Description	Weight (LBS)	Dim. (D)	Price

SHV2021 □□	Rear Cross Brace	3.2	36"	\$5.15/pair

Reinforcing Angles for Class 3 Shelf

A Class 3 shelf requires heavier $\frac{3}{16}$ " reinforcing angles on the front and rear, two standard reinforcing angles in the center, and a side reinforcing angle on each end. The heavy front and rear angle is $\frac{3}{16}$ " x 1" x 1" x width of shelf. The center is $\frac{1}{8}$ " x 1" x 1" x width of shelf. The side is made from 10-gauge, cold rolled steel and is $\frac{5}{8}$ " x $1\frac{13}{16}$ " x $\frac{5}{8}$ " x width of shelf.

Doors

Made from 20-gauge steel, and are easily attached to shelving. Base strips (see page 42) are recommended to close the opening between the door frame and the floor.

Single Doors

Single doors can be used on standard ledge or counter units up to 111" high, and can be attached to angle uprights. Available in swing or hinge type, single doors fit all types of closed shelving units with openings 24" wide. Doors include handles, integral paracentric key locks, and three-point, up-and-down bolt-locking mechanisms.

Double Doors

Double doors are made for openings 36" wide, and are available in various combinations. Left-hand doors have plain handles; right-hand doors have handles with integral paracentric key locks and three-point, up-and-down bolt-locking mechanisms. For units over 87" high, two or more pairs of doors are available for use in tiers.

SHELVING

Ledge Shelving
Nut & Bolt**Ledge Shelving Units**

Ledge shelving has a smooth work surface. The ledge and the top and bottom shelves are fixed and the other shelves are adjustable on 1" centers. Additional units are the same as the initial unit without one partition or end panel. Widths range from 24" to 36" and the units are available in three load capacities. Comes in a variety of colors. See inside back cover for selection. Shelving accessories can be ordered for this shelving (see page 46).

NOTE: *Order an initial unit to be placed at the end of each row break of shelving units and additional units for all units within a row of shelving.*

*ledge shelving, initial unit,
and one additional unit*

SHELVING

Special Purpose Shelving

60

Light Industrial Shelving

The bigger the storage job, the better the reason to turn to UNICOR wide-span shelving — the answer for storing large, odd-sized, or bulky loads. Perfect for manual or automatic loading (except fork truck loading), these units come in a wide variety of sizes and shelf capacities, and snap together easily with no extra bracing required. Open on sides and back for maximum access.

E-Z-Lock Warehouse Shelving

These sturdy, wide-span warehouse storage units are available in a variety of sizes and configurations. Create the ideal shelving to fit your light duty storage needs. Whether you need medium, high density, or wide-span shelving, E-Z-Lock has something for you. You can do it yourself or let our experts measure, plan, and install.

Load Capacity

Standard duty unit (7' high) load capacity starts at 430 lbs. for a 48" x 24" size unit and progresses up to 900 lbs. for a 96" x 48" unit.

High-capacity bulk unit (7' high) load capacity starts at 700 lbs. for a 48" x 24" size unit and extends up to 1,330 lbs. for a 96" x 48" unit.

Load data are for static vertical loads in pounds and are based upon utilization of 5/8" particle board decking.

SHELVING

E-Z-Lock Shelving

E-Z-Lock Standard Units

Using E-Z-Lock's snap-together assembly, standard units provide sturdy, organized shelving at an affordable price. A variety of sizes and capacities offers versatile light and medium-duty storage in commercial and industrial applications. Shelves are easily adjusted in 2" increments to accommodate nearly any

size load. When extra capacity is needed, upgrade to **E-Z-Lock high-capacity bulk shelving units**. Shelves can carry up to two-and-one-half times the shelf load of regular bulk units. Extra shelves can be added to high-capacity bulk units for additional storage area and capacity. (Actual decking is not included.) Recommend 3/8" particle board or 1/2" marine plywood.

E-Z-Lock Bulk Storage Units

E-Z-Lock bulk storage units have greater shelf areas than standard units, making them ideal for storing large or odd-sized items. The wide range of shelf sizes and capacities combined with the option of adding extra shelves allow you to design the bulk shelving system that best accommodates your needs.

E-Z-Lock Archive Storage Units

E-Z-Lock archive storage units provide high density storage of standard 12" x 15" x 10" document boxes. Units hold 20 boxes per shelf.

Archive storage units with angle track deck system are also available. For further information, please call 202 305-3707, 859 225-4824, or 405 262-4875 ext. 391.

INDUSTRIAL RACKING

66

Types of Industrial Racking

Pallet Racking

This style provides convenient, heavy-duty storage of palletized items.

Stacking Racks

Made for forklift handling, stacking racks provide instant pallet storage when you need it, and they nest together completely when you don't.

Internet Orders:

www.unicor.gov

UNICOR's industrial storage products are strong and durable, designed with flexibility, and meet the engineered weight specification for application. Customers can create configurations or we will design a system to meet your needs. Our systems are complete. We offer services from the first step to turnkey projects, including installation. For additional information, call 202 305-3707, 859 225-4824, or 405 262-4875 ext. 391.

Catwalks and Mezzanines

Turn empty ceiling space into functional space for storage, work, or service.

Cantilever Racking

Designed for continuous, barrier-free horizontal storage of heavy items, such as lumber and furniture.

INDUSTRIAL RACKING

Industrial Pallet Racking

Crossbars

Crossbars assist with pallet loading and prevent beam spread. Heavy duty crossbars are 3" wide and are used in conjunction with standard pallets. A minimum of two crossbars is recommended for every pallet load applied. A 90-degree flange prevents slipping, ensures pallets loading, and prevents accidental beam spreading.

Size	Gauge	Weight
24"	12	5 lbs.
40"	12	8 lbs.
42"	12	9 lbs.
48"	12	10 lbs.

Channel Decking

14-gauge corrugated steel channel decking provides a strong, flat storage area within the full amount of space between the steps of the beams, providing maximum storage space for boxes and other bulk items. Made in the same depth size as upright frames in 12" wide locking increments. Available in 18- and 20-gauge on special quote.

CHANNEL DECKING

Stock No.	Dim. (W/D)	Price
PRKDKCHN24 □□	12" x 24"	\$9.50

PRKDKCHN42 □□	12" x 42"	\$13.75
PRKDKCHN48 □□	12" x 48"	\$14.75

PALLET RACKING OPTIONS

Channel decking provides the user with a flat surface that fits in between the steps of the beams. This provides a secure storage area for boxes or any storage requirements. Made of corrugated steel, it is made in the same description depth size as the upright frames for easy installation. The cradle provides space for drums, barrels, or a variety of cylindrical storage. Heavy Duty Flanged Crossbars are 3" wide and are used in conjunction with pallets. A minimum of two crossbars is recommended for every pallet load applied. A 90-degree hook prevents accidental slipping. Expanded Metal Decking is a very popular method of storage. UNICOR's quality design and multi-task functions make this shelving very desirable. With the expanded metal decking the surface is open, but it can also be used as a solid deck. The "open" feature of this decking meets safety and fire standards and has a very appealing appearance.

Industrial Stacking Racks

Stacking Racks

Pallet stacking racks stack together for instant forklift-ready storage, then nest neatly together when unneeded, taking up very little floor space. Wood pallets can be forked right on the racks or the entire rack can be used as a pallet. Available in 13 models in 3000-lb.

and 4000-lb. load capacities, the units are made of tube steel in a rigid post and brace structure that provides maximum strength with maximum weight. Color coding identifies size and load capacity. Ideal for supply depot operations and food storage facilities.

Tire Rack

Stacking tire racks enable you to store tires quickly with a forklift. Racks are manufactured using 2" square 14-gauge tubes. Sizes vary. Rack bases can be manufactured to meet your storage application. Call our technical representative at 202 305-3707 or 405 262-4875 ext. 391.

- 1 — Select a finish color.
- 2 — Place 2-digit color code at end of stock no.

INDUSTRIAL RACKING

Catwalk Systems and Mezzanines

80

UNICOR can design a customized unit to meet your requirements and specifications. Each mezzanine system is different; therefore, contacting a UNICOR technical representative is your first step. Please call 202 305-3707 or 405 262-4875 ext. 391.

CATWALK SYSTEMS

Custom quality Catwalk structures are available through our industrial products program. In conjunction with industrial shelving, UNICOR manufactures components used in the Catwalk product line. Installation is available, upon ordering, through experienced professional contracted installers with complete product knowledge. Metal shelving is available in the shelving section of this catalog.

INDUSTRIAL RACKING

Catwalk Systems and Mezzanines

Starter Units

Begin your catwalk and mezzanine system with one starter unit, featuring four corner columns. Then connect with as many add-on units as needed.

Add-on Units

Add-on modules have two intermediate columns and connect with each other to create as large a system as space allows. Units connect where girders meet.

Special Notice: UNICOR offers a complete turnkey process for your mezzanine requirements. Our technical specialists review your specifications and custom design a system to maximize your space. Each system is fully installed using UNICOR's government contract installer and all projects are covered under UNICOR's standard guarantee. Each mezzanine system is different; therefore, contacting a UNICOR technical representative is your first step. Please call 202 305-3707 or 859 225-4824.

Bar Grating

Standard surface is steel bar grating (19W4 or 19W2). Other less expensive style surfaces also available.

Hand Rails

Steel hand rails, 42" high and 1½" square tube, for all open areas of catwalks provide reliable security.

Stairs, Ladders, Steps, and Landings

Steel fabricated stairs, ladders, and steps are easy to install. Choose from the variety of models. Landing units include grating plus handrail and kickplate for two sides.

INDUSTRIAL RACKING

Industrial Cantilever Racks

84

Cantilever Racks

For heavy, oversized, large, and odd-sized items, cantilever racking is ideal because it provides long expanses of horizontal storage with no space lost to uprights. Access for loading and unloading is easier. Cantilever racks are available in single storage and double storage shelving, in light and heavy-duty capacities.

The cantilever design ensures easy assembly and adjustment with fool-proof removal and replacement of arms. Simply fasten arms to columns with locking bracket pins. The heavier the load, the greater the clamping action and rigidity of the system. And because arms function independently of each other, individual stock locations can be exactly the dimensions you need.

THE CANTILEVER CAPACITIES are dependent on the length of the section or row; the type, height, and number of uprights; the number and size of the arms; and the size of the base. The capacity of the uprights is listed in the item description. The allowable capacity is determined by the overall system's design. The total arm capacity (2,000 lb. light duty, 4,000 lb. heavy-duty structural) must not add up to more than the upright capacity. To increase the capacity of the overall section, uprights, shorter arms, and larger bases may be used. There are several styles of cantilever uprights, including the seismic rated capacity type. Because of the complexity that the combination of these options creates, it is suggested that the manufacturer review the overall design of the system. The load information (weight and cubic measurements of the load) will be necessary to calculate an adequate design of the system. Please feel free to use our expert technical support for any cantilever system requirements.

The boxes at the end of the Stock No. designate the product color code. For the cantilever systems, use {03-orange or 53-gray}.

See cover flap for color swatches.

DECKING OPTIONS

Bar grating has been a very desirable decking method for the cantilever and stacking rack products. Bar grating is priced by the square foot and is quoted according to the system requirements.

Decking options are available and must be quoted according to system configurations. Cantilever systems are available for seismic rated regions. Complete installation and engineering studies are also available at an additional charge. Call for price at 202 305-3707, 202 305-3784, or 800 827-3168.

* Additional sizes are available. Please call us for a quote at 202 305-3707 or 405 262-4875 ext. 391.

UNICOR is a Certified Custom Builder

Under the National Sanitary Foundation standard #2, UNICOR is a certified custom builder. All products are warranted to meet the high quality standards of Military and Federal specifications.

First-Rate Quality

UNICOR products use high grade stainless steel, giving food service equipment greater durability and a longer work life without rusting. Most stainless steel food service equipment is tig-welded for sturdy construction and ease of cleaning.

Internet Orders:

www.unicor.gov

UNICOR manufactures a complete line of very high-quality food service equipment. Your investment in quality food service equipment will serve you well for years to come.

FOOD SERVICE

Prep Tables

Four-Deck Pot and Pan Rack
 One of our most popular items, this extra-heavy-duty, 4-shelf rack is ideal for storing large pots and pans and other bulky items. All tubular stainless steel and continuous solid-welded construction includes adjustable bullet feet for leveling on uneven floors.

92

Table with Upper Shelf and Cutting Boards
 Designed to satisfy a host of needs, this super-heavy-duty table is the ideal workstation in the kitchen or bakery. The rear half of the work surface is 14-gauge stainless steel and the front half accommodates two removable (36" x 18") polyethylene cutting boards. Elevated 19" above the work surface is a 14-gauge stainless steel shelf (10" x 72") with an 8" high backsplash. Handy upper shelf serves as condiment, utensil, and food storage, or for cooling breads and dishes hot from the oven. Table includes a two-piece removable undershelf and legs with adjustable bullet feet.

NOTE: Segregation Bed Shipping Options

Shipping charges vary depending on the destination, optional equipment, and quantity. Shipping charges will be significantly lower if the amount of full truckloads is reduced. UNICOR, FCI El Reno offers an optional "field welded" segregation style bed. The designation for this type bed is the "knockdown" (DKD) segregation bed. This style bed requires assembly by the customer. The legs of the beds are supplied with a gusset at the necessary locations to ease the assembly process. Assembly drawings of the bed are available upon request.

SEGREGATION BEDS (DOUBLE, FULLY ASSEMBLED AND WELDED)

Stock No.	Description	Dim. (W/L)	Group	Weight (LBS)	Price

Ladder

The "foot friendly" ladder has an angle iron for a flat step. This version of the bed ladder has the same overall dimensions as the standard round stepladder. For customer convenience both designs are now available. The ladders are welded into position. Customer must specify right or left side of bed.

ADDITIONAL PRODUCTS

Metal Lumber and Miscellaneous

Metal Lumber

Slotted angles are the universal fasteners of metal shelving and support units. This multipurpose product can be cut, combined, and fastened together through pre-punched hole patterns into unlimited configurations for endless functions. Use for cross-aisle and down-aisle shelving, for tall package racking, hanging support for overhead doors, and more.

Available in 12- and 14-gauge galvanized steel. Sold in bundles of 10 pieces with 75 bolts and nuts.

examples of finished metal lumber pieces

Casters

- Take full advantage of the versatility of slotted angles with these specially designed casters.
- Attach these 3½" and 4" swivel casters to angles or corner gusset plates for instant mobility. In sets of four, hardware included. Each package contains 75 each of 5/16" x 3/4" bolts with nuts.
- The 3½" rigid caster is rated at 250-lb. capacity and measures 4^{11/16}" high x 5" long x 2½" wide. Wheel tread is 15/16" wide. Four mounting holes are 5/16" diameter and spaced 13/16" x 4".
