

Division of Gynecologic Oncology
University of Kentucky

OUR VISION

To provide exceptional cancer care for the women of Kentucky and the region, while maintaining our commitment to education and scientific investigation.

OUR MISSION

- To provide high quality, compassionate, and personalized cancer care by incorporating the most advanced techniques in surgery, chemotherapy, radiation therapy, and palliative medicine.
- To educate patients and health care providers concerning all aspects of gynecologic cancer care.
- To conduct ethical scientific investigation that will improve the lives of women with gynecologic malignancies.
- To promote gynecologic cancer awareness, prevention and treatment.
- To ensure that every Division member reaches their full personal and professional potential.
