

Since 1989, CMA has been a leader in helping companies achieve success in the public sector market.

Marketing

CMA delivers an integrated suite of marketing solutions designed to create awareness, build brand loyalty and implement successful marketing campaigns for our clients. Many of the leading established technology companies - as well as new start-ups - have relied on CMA to better understand the business of government and to target the delivery of their marketing message.

Business Development

Our experienced and knowledgeable staff of business development personnel supports our clients with the required business intelligence, strategies, and processes to identify, qualify, pursue and capture new business in the public sector markets. We have successfully helped a diverse mix of clients - from emerging companies to Fortune 100 vendors and established systems integrators - win large competitive procurements.

Contract Services

Our government contracts practice provides the necessary resources to obtain award and maintain the contractual vehicles required to execute business with government buyers. CMA has successfully supported over 300 firms obtain a favorable award of a GSA Schedule Multiple Award contract. A GSA Schedule representation program is available for clients who do not wish to hold a direct contract.
