

Be it resolved: Agencies can achieve greater return-on-IT with Linux-based solutions from HP.

Achieving mission success and adapting to ongoing change is always on the agenda for agencies utilizing Linux® IT Solutions from HP. As the leading provider of Linux IT solutions, HP has shipped more than 1 million Linux servers to customers since 1998—45% more than any other major hardware vendor. And on that there's no debate.

## Welcome to the 2006 Red Hat Government Users Conference

On behalf of DLT Solutions, Inc. and Red Hat, we would like to welcome you to the second Red Hat Government Users Conference. We are excited to be your hosts today and to provide you this unique opportunity to learn more about open source and Linux.

As Red Hat's largest government reseller, DLT Solutions provides the most trusted Linux system available to government agencies. The Red Hat Enterprise Linux family of products provides the industry's most comprehensive suite of Linux solutions designed specifically for mission-critical enterprise computing. Red Hat Linux offers a superior combination of value and performance.

Organizations and government agencies throughout the U.S. are taking advantage of Linux and open source technology to increase performance, reduce costs, and gain choice through open standards. Today, you'll learn more about this technology and how to best utilize it for your specific needs.

We would like to extend a special thank you to HP, Intel, and IBM for participating as the event's gold sponsors. During the exhibit portion of today's schedule, you will also have the opportunity to visit with representatives from the following supporting organizations:

HP Intel IBM Red Hat Tresys Systems Black Duck

We look forward to working with you and supporting your open source technology requirements.

With gratitude,

Rick Marcotte  
President and CEO  
DLT Solutions, Inc.

Paul Smith  
Vice President, Government Sales Operations  
Red Hat, Inc.
