

Keynote Speakers

Rick Marcotte
President and CEO
DLT Solutions, Inc.

Before joining DLT Solutions, Inc., Rick Marcotte was Vice President, Sales & Marketing for Troxler Electronic Laboratories in Research Triangle Park, NC. Earlier business experience includes senior management and executive positions with Powerware Corp., Invensys Energy Systems, and Nortel Networks. Marcotte holds an MBA from the University of Windsor (Canada) and also holds a Certified Management Accountant designation.

Paul Smith
Vice President
Government Sales
Operations
Red Hat, Inc.

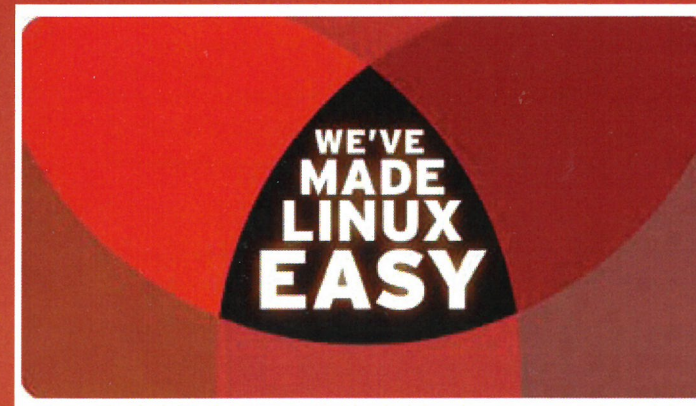

Responsible for leading the Red Hat Government business unit globally, Smith brings to Red Hat more than 20 years of experience marketing key technologies to the government marketplace. His experience ranges from management positions in the sale of software solutions to government agencies and systems integrators. Prior to joining Red Hat, Smith was Vice President of Government Operations at VERITAS. During his 5 year tenure, the business unit was the fastest growing vertical at VERITAS, increasing from less than \$15M to more than \$200M. Other experiences include running state and local government sales for Netscape Communications and sales organizations at Oracle in the areas of Public Sector, Aerospace, and the Department of Defense.

Michael Tiemann
Vice President
Open Source Affairs
Red Hat, Inc.

Michael Tiemann is a true open source software pioneer. He made his first major open source contribution over a decade ago by writing the GNU C++ compiler, the first native-code C++ compiler and debugger. His early work led to the creation of leading open source technologies and the first open source business model.

In 1989, Tiemann's technical expertise and entrepreneurial spirit led him to co-found Cygnus Solutions, the first company to provide commercial support for open source software. During his ten years at Cygnus, Tiemann contributed in a number of roles from President to hacker, helping lead the company from fledgling start-up to an admired open source leader.

Tiemann is a member of the Fedora Advisory Board. He is also President and a member of the Board of Directors of the Open Source Initiative, the stewards of the Open Source Definition. Tiemann also provides financial support to organizations that further the goals of software and programmer freedom, including the Free Software Foundation, the Electronic Frontier Foundation, the Blender Foundation, the Open Source Geospatial Foundation, and the Conservation Commons.

You know Linux is reliable. You know it has security you can trust. In fact, 160+ governments world-wide have adopted open source. With the right experience and expertise, you can make the move, too.

It's never been easier to move to Linux.
