

Week 9

Growing Stage

What do Critters Eat?

The students will learn about the three main types of diets in the animal kingdom

- Carnivores
- Herbivores
- Omnivores

Based on the levels of plants they will decide who is highest on the food chain by placing a carnivore and herbivore and an omnivore on what level they think they are on the food chain.

Rule 45-50

Week 10

Growing Stage

What We Need Most

What about us? What is our diet?

The students will evaluate the eating habits that humans have and decide what type of diet a human should maintain. This will bring them to the healthy plate diagram and allow them portion size and control.

6 Rule 50-55

Week 11

Growing Stage

Grand Tour!

The students will go on a tour of a Supermarket. They will go to the isles which they most frequent and then try to pronounce the ingredient of their favorite foods. (Corresponds with book) Then they will learn about the rule of staying on the edges of a grocery store. They will then identify the veggies which they are growing in their greenhouse

Rule 55-60

Week 12

Final

The Feast!

The students will finally be able to harvest the veggies which they have studied. The students will prepare a big dinner with all of the vegetables which they have grown.
