

**N**ick's just seen the girl who dumped him walk in with a new guy. What else can he do but ask the strange girl next to him to be his new girlfriend for the next five minutes? Norah would do anything to avoid conversation with the not-friend girl who dumped Nick... and to get over Evil Ex whom Norah never really totally dumped. What else can she do but answer Nick's question by making out with him? With one electric, unexpected kiss, the five-minute couple of Nick and Norah set off on an uncharted adventure called the "first date" that will turn into an infinite night of falling in and out (and in and out, and maybe in and maybe out) of love.

♥ "An emotional, passionate, cathartic, and ultimately hopeful night of wandering, music, and incipient love."

— **The Bulletin**, Starred

♥ "The waitage goes way up as two of the bright lights of contemporary writing for teens come together for an incandescent, he said/she said night of story telling. There's perfectly captured teen music-geek talk and delicious stuff about kissing and what lies beyond."
