MARK BRIC BANNERUP PLUS

The BannerUp Plus is with no doubt one of the best retractable banner displays available in the world. It is the perfect banner display for exhibitions, events, conferences and promotion campaigns especially where quality and reliability is a number one priority.

SIDE BY SIDE CONNECTION
The Flat ends allow you to connect systems together to create large backdrops, they also minimise damage if dropped on the ends during transport

PATENTED GRAPHIC QUICK CHANGE
The patented quick change features allows you to change banners quickly and easily without having the system sent back for banner replacement

STABILITY
The hideaway swivel feet can easily be accessed for extra stability if needed

COLOURS
The BannerUp Plus is now available in Black

CARRY BAG
All BannerUp plus systems include a high quality carry bag

EASY TENSION ADJUSTMENT
Depending on the material you use you can easily adjust the tension to suit, just use a regular screw driver. It couldn't be easier!

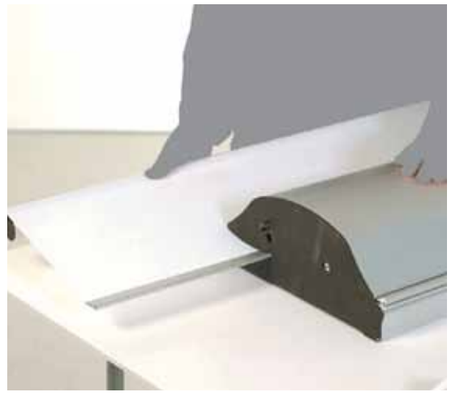
BANNER DISPLAY SYSTEMS

MARK BRIC BANNERUP DOUBLE PLUS

The Double sided BannerUp Plus is extremely stable with all the unique features of the single sided BannerUp Plus. The cassette comes in a padded carrying bag on wheels for ultimate portability.

Includes carry bag with wheels



Double plus quick change

Item no	Width (mm)	Overall Assembled Dimensions (dxhxw)mm	Packed dimensions (dxhxw)mm	Weight	Packing	Warranty
81125	880	280x2120x890	280x110x890	14KGS	1 per Box	10 YEARS

MARK BRIC BANNERUP BIG PLUS

The Mark Bric Big Plus is available in widths of 1200 and 1500mm. A total height of an impressive 3 metres will make any message stand out in the crowd.

The Big plus units are equipped with extra long support feet for the best possible support

Item no	Width (mm)	Overall Assembled Dimensions (dxhxw)mm	Packed dimensions (dxhxw)mm	Weight	Packing	Warranty
81137	1200	140x3000x1210	140x 110x1210	9.5 KGS	1 per Box	10 YEARS
81138	1500	140x3000x1510	140x110x1510	10.5 KGS	1 per Box	10 YEARS

These systems boast all the same features as a standard Mark Bric BannerUp Plus system.

MARK BRIC BANNERUP DOUBLE PLUS

The BannerUp Plus 2400 has now made the BannerUp Plus the most complete retractable banner stand series available. The BannerUp Plus 2400 has all the unique features of the standard sizes but comes with the extra long feet for extra stability.

MARK BRIC BANNERUP DOUBLE PLUS

The BannerUp plus offers alternative solution for large back drops. The standard height is 2120mm height (graphic height is 2060mm). If other heights are needed you can simply add extension poles or take poles away.

Item no	Width (mm)	Overall Assembled Dimensions (dxhxw)mm	Packed dimensions (dxhxw)mm	Weight	Packing	Warranty
81119	2400	140x2120x2410	140x110x2410	18KGS	1 per box	10 YEARS

Colours: Silver, Black (Colours: Available only in aluminium finish Black is not always in stock and is only available in the 880 size)

MARK BRIC BANNERUP DOUBLE PLUS

The BannerUp Plus is ideal to connect side-by-side to achieve a full size Back wall. Thanks to the unique design of the BannerUp Plus, the gap between the banners is kept to a minimum.

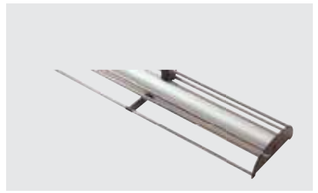
BANNER DISPLAY SYSTEMS

BANNERUP CABRIO

The First roll-up with the ability to customise! Customise your next banner display with BannerUp Cabrio, a unique new invention from Mark Bric Display. Cabrio is the first retractable banner stand with interchangeable logo plates.

Change the graphics – patented quick change

Change the logo plates- Change on click off



Base model
Use the cassette as is, without the addition of logo plates, for a top quality, economical stand with a high-tech look.

Classic model
Add any of our standard logo plates to give the Cabrio an elite, classic appearance. We offer the following plates:
- Anodised aluminium
- Black
- White
- Red perforated

Item	Description	Width (mm)	Overall Assembled Dimensions (dxhxw)mm	Packed dimensions (dxhxw)mm	Weight	Packing	Warranty
81150	Cabrio base model	880	220 x 2090 x 890	220x85x890	6kgs	1 per Box	10 YEARS
81160	Anodised logo plate	880					10 YEARS
81161	Black Logo Plate	880					10 YEARS
81162	White logo plate	880					10 YEARS
81163	Red perforated logo plate	880					10 YEARS

You can quickly and easily change the style and colour of your cassette to match perfectly with your banner graphics, or enhance your brand identity with custom-printed plates.

Cabrio comes in a padded carrying bag

You can adjust the tension on the cabrio very easily!

BANNERUP PLUS QUICK-CHANGE KITS

Easy Banner Change - a unique patented banner change feature on the Mark Bric Banner systems allows you to repeatedly use different banners in the one system.

BannerUp Plus Quick-Change Kits

Item no	Size(mm)
81019	250
81022	600
81020	880
81030	1000
81040	1200
81050	1500
81060	2400

Just slide the old one out and replace it with a new one. In order to do this you will need a Quick-Change kit for each banner. The kit contains one pair of rails (top and bottom)

PADDED CARRYING BAG

The premium BannerUp carrying bag includes extra thick padding which gives shock-proof protection against damage during transport. A convenient shoulder strap is also fitted.

Item no	Size (mm)
5029	600
5020	880
5021	1000
5022	1200
5023	1500

BANNERUP EXTENSION POLES

The Extension Poles allow you to increase the Banner Height. The 1200, 1500 and 2400 systems require 2 poles, all other sizes only 1.

Item no	Product Description	Weight	Packing
89255	19cm extension		
89256	38mm extension		

HALOGEN SPOTLIGHT

Focus all attention on your graphics with a halogen spotlight!

Item no	Product Description	Weight	Packing
80015	Halogen Spotlight	500Grams	1 per Box
Colours: Black

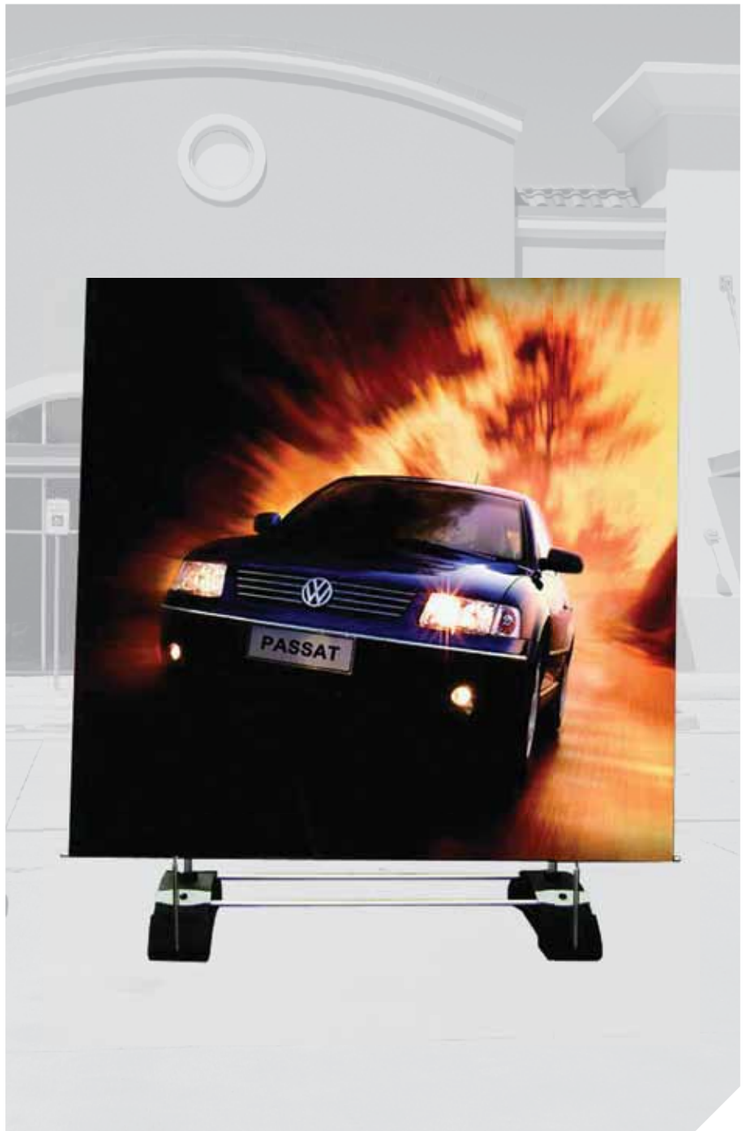
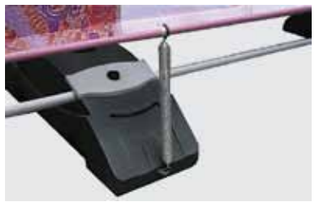
RITE OUTDOOR BACKDROP

The Rite Outdoor Backdrop is an excellent portable display for wide format graphics in outdoor situations. The bases can be filled with water for better stability. With graphics being up to 2500mmW x 2500mmH you can create impressive attention getters in an event situation.



Item no	Graphic size(mm)	Weight	Weight inc Water
ET1-55	2500H x 2500W	18.2KGS	50KGS

Join systems together to make even larger walls and you can also display graphics on both sides. Each system comes in 2 carry bags.



The graphics are attached with springs to create small movement and catch the eye

The top of the graphics is also held with springs, the springs also help make the graphics taut and gives greater flexibility with graphics size

You can keep joining systems to create long back walls

RITE 5M FLAG

The 5 metre Flag is perfect for outdoor events, exhibitions and as high visibility signage. When your client wants to standout in the crowd you will never get a better solution than the 5m Flag. The telescopic pole gives scope for different size flags and banners

The water fill base comes in 4 sections for ease of transport

Rite 5m Flag Features:

Water fillable base is aesthetically pleasing and provides extra stability. This banner is held in place utilizing eyelets on the 2 sides, eyelets makes the assembly of the flag quick and easy. If you need to change the banner simply unclip the old banner and replace with the new one. All flags come with carry bags included.

Item no	Graphics size(mm)	Height(mm)	Weight without water	Weight with water
ET1-50	1000W x 3000H	5000	16KGS	56KGS

The structure a combination of aluminium and durable plastic make the 5m Flag great for outdoor situations.

RITE FEATHER & TEARDROP FLAG

The Rite Tear Drop Flags are the perfect attention grabber and great for brand awareness. There are 3 available sizes which all come with grass spikes and carry bags.

Feather Shape Flag

Tear Drop Shape Flag

The Tear drop flag poles come in three sections plus the spike

A carry bag is included with each flag

MARK BRIC FLEXIFRAME

Flexiframe is the ultimate graphic display solution for all your retail, corporate and exhibition display needs. Possible configurations, design and layouts are endless plus the choice of colour make the opportunities almost infinite.

Renting from an exhibition company is usually very expensive and even more of a problem – your stand will look like all the other exhibitors.

Purchasing a Flexiframe system makes good economic sense and will really make you stand out in the crowd. Most organisations would have covered the cost of the purchase by the second exhibition, as compared with renting.

The flexibility of the Flexiframe means you can also use the system between the exhibitions and trade shows in its original form or readjusted to suit your display area such as the reception or showroom in your company… all by using the same panels.

One of the world's most versatile display and exhibition systems!

WE OFFER THE FLEXIFRAME IN 4 DIFFERENT FORMS

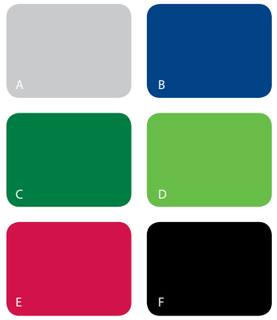
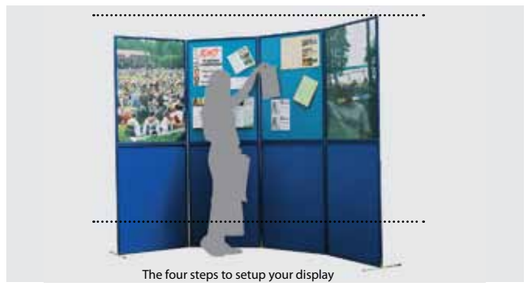
VELCRO PANEL DISPLAYS

The Velcro Panel Displays are a very portable display system for displaying various different poster sizes and information leaflets. They are commonly used by community centres where the latest news can be pinned up or attached easily and efficiently.

Choose your frame colour



Choose your fabric colour



The four steps to setup your display

Item no	Description	Size(w x h)	Weight(approx)
ET3 -1001	6 Panel Display	2190mm x 2060mm	13KGS
ET3 -1002	6 Panel Display with headers	2190mm x 2390mm	17.5KGS
ET3 -1003	8 Panel Display	2920mm x 2060mm	16KGS
ET3 -1004	8 Panel Display with headers	2920mm x 2390mm	22KGS
ET3 -1005	10 Panel Display	3650mm x 2060mm	19KGS
ET3 -1006	10 Panel Display with headers	3650mm x 2390mm	26.5KGS
ET3 -1007	Add on 2 Panel Kit	730mm x 2060mm	3.5KGS
ET3 -1008	Add on 2 Panel Kit with headers	730mm x 2390mm	4KGS
Additional extras are available such as lights- see page 3:9			

EACH SYSTEM COMES WITH:

Carry Bags
(except the add on 2 panel)
- Connectors for backwall (connectors are available for different configurations) - Instructions - Panels (700mm x 1000mm) - Optional headers (700mm x 300mm)

Each panel is approx 700mmW x 1000mmH and is extremely lightweight but rigid and strong. Panels can be placed in a portrait or landscape format. Each panel is covered with velcro receptable fabric on both sides. You can choose between 6 different fabric colours and 16 different frame colours.

STANDARD FLEXIFRAME SYSTEMS

The Flexiframe systems can be purchased with frames only so you or your client can insert your own graphic panels. We highly recommend 5mm Gatorfoam as the insert and if you want to just insert a poster you need to sandwich them between 2 pieces of clear plastic.

MARK BRIC SNAPUP

The ideal system for large format graphics! We provide two professional SnapUp Models with unparalleled durability and quality of workmanship: MP1(MagnetPro-1) and MP2(MagnetPro-2). Both systems are compact, portable and extremely user friendly.

Step-by- Step – It can't be easier

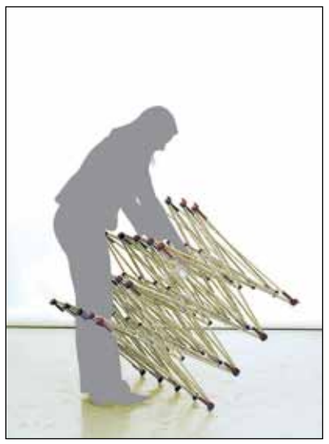
When erected, the aluminium structure is automatically and instantly held into position with magnetic locking.

When mounting the quick-fit magnetic bars, just attach the top edge of the bar to the "Hub" and the bottom edge will position itself automatically.

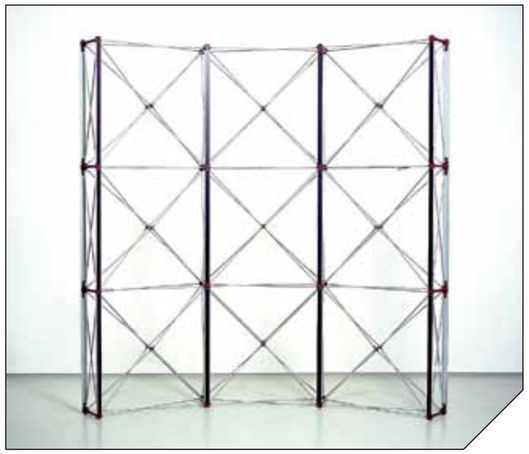
Super strong magnetic tape on the reverse side of the panels will simply attach to the magnetic bars already mounted on the structure.

Curved, straight or cylindrical shapes, as well as different formats are available to fit all types of display requirements. The SnapUp systems allow for fast exposure of seamless large scale images. Text and graphics are totally uninterrupted and will attract full attention.

What does the term MP (MAGNETPRO) Stand for?
The magnetPro Systems have some unique features which make these systems extremely easy to assemble, compared to other more limited and complicated systems.



BUILD YOUR OWN FLEXIFRAME KITS - LIST OF CONNECTORS



MP1 has a cross-braced construction and is identified by its burgundy " Hubs".

MP1 is the top-of-the-line SnapUp model. Its cross-braced construction gives maximum strength and rigidity to the system, and most important, the graphic panels will always hang perfectly. MP1 is available in the classic curved popup format and the straight format. Both formats will ensure that the graphic images are displayed with full effect.

MP2 is the most versatile "SnapUp" model and at the same time, very economically priced. The MP2 is identified by its grey Hubs.

Absence of the cross-bracing makes it a traditional pop-up system and allows deep display shelving. MP2 is available in a curved, straight or cylindrical shape.

Both the MP1 and MP2 Systems can be purchased in various different ways :
Complete Kits ● Build your own kits ●

Custom designed kits. Note: The size of a popup system is often referred to as the number of squares (wxh) it consists of.

BUILD YOUR OWN SNAPUP KITS

MP1 / MP2 BIG WAVE – BASIC STRUCTURE

"Big Wave"
Stand out from the crowd by choosing our new SnapUp model with a "wavering" design. Perfect symmetry when used as a dividing wall with double sided graphic panels (add extra magbars – see page 14). Comes in two sizes, 4x3 and 6x3, and is available both as MP1 and MP2 model.

Item no	Item no.	Sizes
MP1 4x3	82290	3000 (w) x 2255 (h) x 400 (d) mm
MP1 6x3	82291	4200 (w) x 2255 (h) x 600 (d) mm
MP2 4x3	82295	3350 (w) x 2225 (h) x 530 (d) mm
MP2 6x3	82296	4490 (w) x 2225 (h) x 720 (d) mm

ALWAYS INCLUDED — All SnapUp backwalls and towers include, at no surcharge, protective covers for the structure and the magbars. (MP2 Value and Mini have a separate pocket for the magbars in the carrying bag.)

ATTACHMENT OF GRAPHIC PANELS

To be able to attach the graphic panels to the system, you MUST add "kickers & hangers" or "hang tabs", as well as magnetic tape.

Alternative 1: "Kickers & Hangers"

Full width plastic strips with extra strong adhesive tape. Attached both at the top ("Hanger") and at the bottom ("Kicker") of each graphic panel. No cut out in the graphic panel itself is necessary.

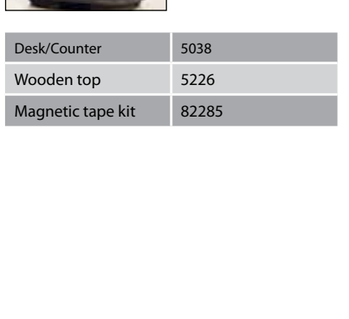
TRANSPORT CASES/COUNTERS

Choose between three different hard cases to store and transport the SnapUp system and your valuable graphics. All three cases are equipped with heavy-duty, easy-roll rubber wheels and can be easily converted into an attractive and functional counter unit with wraparound graphics or velcro panels. Add a wooden top to make your counter complete.

All-in-one Case	Multi-Compartment Case	Budget Case
Our newest case model with a very elegant design and practical grip handles all around for easy handling and lifting of the case.	The case has three well-protected compartments: One for the structure, one for the graphic panels and one (the lid) for two spotlights.	Save money and choose our budget case solution. Our most compact and lightweight case.

The case has room for:
1/ Structure incl. magbars
2/ Graphic panels
3/ Two spotlights
4/ Wooden table top

Please Note: A full set of velcro panels can not be packed in this case, unless spotlights are excluded. For velcro panels use item 5040.



Unique Mark Bric feature: The case is equipped with metal bands to be able to attach the wrap-around graphics with magnetic tape. Advantage: Very quick and easy assembly of panel and a perfect stretch!!

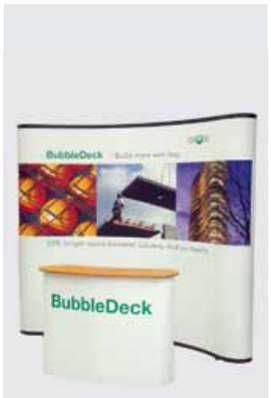
CUSTOM DESIGNED SNAPUP KITS

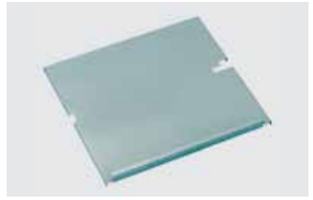
If you would like us to design your own special SnapUp display please contact us.



MARK BRIC MP2 MINI COUNTER/ LITERATURE RACK

A counter solution that will display your brochures and small products in style!

Mini Counters come with wooden shelves



Literature racks include metal brochure shelves

Both systems fold down completely in to a carry bag

Carry Bag for mini counter, literature racks and Graphic Bag for large single graphic panel

Carry Bag for mini counter, literature racks and 3 graphic panels

Item no	Description	Width (mm)	Depth (mm)	Height (mm)	Weight	Packing	Warranty
82038	Mini Counter	685	295	1035	10KGS	1 per box	10 YEARS
82036	Literature rack/3 Shelves	685	295	1035	6KGS	1 per box	10 YEARS
82037	Literature rack/4 Shelves	685	295	1365	7KGS	1 per box	10 YEARS
5035	Extra graphic bag	1200	150	150			

Magnetic tape for one graphic panel is included in all deliveries of the counters. To purchase extra for the production of additional panels see page 3:14 Item 82282 turn to page 3:33 For graphic sizes

A Carry Bag for the mini counter and literature racks is always included. This bag will also have room for the graphics, when using 3 separate panels. Should you instead want to use one larger single panel, you will need to add one graphics bag for the transportation of this larger graphic.

Black top is also available

MARK BRIC EGO EXHIBIT

Introducing Mark Bric EGO - a revolutionary concept within displays and exhibition building. Ego gives wings to a bright new idea of having a distinctive graphic panel system with room for much more creativity and customised designs, compared to more limited stand building and pop-up systems. The construction virtually disappears in favour of the printed graphics, your message - visual communication at its best.

Mark Bric EGO - Building on a bright idea™

The new concept is delivered as a highly engineered , yet extremely simple building system using only three basic components. Ego can be assembled in virtually any size and shape configuration, with the structural integrity for mounting heavy accessory items such as LCDs, product showcases, and load bearing shelves. To keep things simple, Ego even provides completely tool-free assembly.

FRAME COMPONENTS

Cutting of Profiles
Insert panel size less 28mm (frames with a split profile)
Insert panel size less 30mm (for frames with solid profile only)
For example: The profile lengths for a 70 x 100cm panel must be cut 67.2 x 97.2cm (for frames with split profile).
Exception: For corner 4102 cut profile less 110mm.

Profile	Item	Packing
Insert panel clip	4902	100pcs
Profile extender	5897	25pcs
Profile cutting tool	80900	1pc
l-support, 3-way corner	3204	100pcs

Panel Grip
The "panel grips" hold pane is tightly inside the frames. Completely hidden from view, they add extra security and stability to your display. Use 4 pcs/panel.

Profile	Item	Packing
Panel grip, use 4 pcs/panel	4904	1000pcs

MOUNTING & SUSPENSION OF SINGLE FRAMES

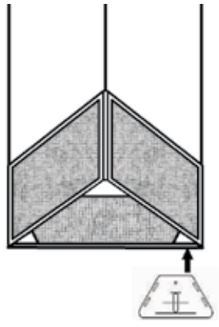
item no: 2000
For quick mounting of frames

Wall Bracket
item no: 2001
For fixed mounting of frames

Ceiling Connectors
Triangle Connector = item no: 3040
Square Connector = item no: 3041
These brackets form square or triangular modules which can be hung from a ceiling.



MOUNTING & SUSPENSION OF SINGLE FRAMES

C-Hooks
item no: 2005

C-Hooks connect frame to hanging accessories

Chain
item no: 2006

A way of suspending your frame with extra class.

Wall Hook
item no: 2010

Wall hook with spring. Use two plates.

Origin
Flexiframe is produced and developed in Sweden by Mark Bric AB.

Material
The frame profiles are produced in durable Polyvinyl-plastic. The corner pieces are produced in polypropylene-plastic.

Colours
Profiles are produced in the following standard colours: White (51), grey (52), red (53), blue (54), black (55), brown (56), green (57), beige (58), metallic grey (59), yellow (60), teal (61), burgundy (62), purple (63), hunter green (64), orange (65) and clear blue (66).

Information on frame sizes
All sizes given for the frames in brochures, price lists etc. are insert panel size (size of the panel to be inserted into the frame).

Further frame measurements are as follows:
Overall size = Panel size plus 28mm
Visible panel size = Panel size less 20mm
Cutting size of profile = Panel size less 28mm

For example:
Panel size: 700 x 1000 mm
Overall size: 728 x 1028 mm
Visible panel size: 680 x 980 mm
Cutting size of profile: 672 x 972 mm

Corner types
There are two types of basic 90 degree corners: Rounded and square.
– Single frames are delivered with rounded corners as standard.

– Frames in backwalls and other displays and exhibition kits , such as tables and towers/crosses, are always delivered with square corners as standard.
Assembly of frames

– Single frames ordered without panels are delivered unassembled .

– Frames in backwalls and other displays and exhibition kits , such as tables and towers/crosses, are always delivered assembled in cardboard boxes. Also for units ordered without panels.

Opening of frames
– Single frames are delivered with top opening on the short side for portrait size (except 70x30 cm and 50x20 cm with opening on the long side for landscape size) for easily changed insert.

– Frames in backwalls and other displays and exhibition kits , such as tables and towers/crosses, are delivered as closed frames . On these frame sections there is a marking label on the frame profile to indicate which side of the frame to take apart. Just pull the corners out of the profile to change the infill panel.

Panels
Most panels with a maximum 5 mm thickness can be used inside the frames. Panels should be the exact size to avoid instability of display units. When suspending single frames, we recommend the use of light-weight panels.

Physical properties
We recommend interior use of the frames.
Min.temp: -20 deg. C / Max.temp: +50 deg. C

UV-radiation
To minimize colour changes we recommend you to avoid darker frame colours, for example black, red and blue, in direct sun light.

Flammability
UL 94 V-O (low)

Connectors
Frame connectors are produced in zinc-plated steel.

Table tops
Table tops are produced in white painted aluminium. We recommend that table top loading should not exceed 30 kg. When building table displays, the frame insert panels must be accurately cut to size and squareness. This will ensure the maximum strength and stability of the table.

POSTER & SIGNAGE SYSTEMS
POSTER & SIGNAGE SYSTEMS

RITE SINGLE SNAPFRAMES

The Rite Single SnapFrame presents your posters and prints in the best way possible. The frame is anodised aluminium with rounded chrome corners, the aluminium snaps open and shut making this frame system very user friendly.

Profile shape

Item no	Size(mm)	Weight	Packing
ET4-1	A4(210 x 297)	0.9KGS	1 Per box
ET4-2	A3(297 x 420)	1.5KGS	1 Per box
ET4-3	A2(420 x 594)	2.35KGS	1 Per box
ET4-4	A1(594 x 841)	3.7KGS	1 Per box
ET4-5	A0(841 x 1189)	4.85KGS	1 Per box

Each frame comes individually wrapped in a plastic bag and boxed. Each frame has clips on the back and you can either hang the frame or fix it direct to the wall by screwing through the frame.

RITE MITRED SNAPFRAMES

The Rite Mitred SnapFrame presents your posters and prints in the best way possible. The frame is anodised aluminium with mitred square corners, the aluminium snaps open and shut making this frame system very user friendly.

Profile shape

Item no	Size(mm)	Weight	Packing
ET4-10	A4(210 x 297)	0.9KGS	1 Per box
ET4-11	A3(297 x 420)	1.5KGS	1 Per box
ET4-12	A2(420 x 594)	2.35KGS	1 Per box
ET4-13	A1(594 x 841)	3.7KGS	1 Per box
ET4-14	A0(841 x 1189)	4.85KGS	1 Per box

Each frame comes individually wrapped in a plastic bag and boxed. Each frame has clips on the back and you can either hang the frame or fix it direct to the wall by screwing through the frame.

The Rite Single SnapFrames and Rite Mitred SnapFrames come with an aluminium composite back board and a clear acrylic sleeve to protect your poster. Snap your poster in place and start promoting, it couldnt be easier!

RITE LOCKABLE SNAPFRAMES

The Rite Lockable Snapframe is an elegant way of displaying your posters securely. The 4 sides of the lockable frame have to be opened in sequence. The last Anodised aluminium profile is held in place with a screw on top that can be opened by key.

Lock frame with key (pic to come)

Item no	Size(mm)	Weight inc packing
ET4-29	A3(297 x 420)	1.1KGS
ET4-30	A2(420 x 594)	1.8KGS
ET4-31	A1(594 x 841)	3KGS

All frames come with an Allen key to open the locked profile. Each frame comes with fixing screws and installation instructions.

This system stops easy access by unauthorised people.

RITE WINDOW SNAPFRAME

The window snap frame is available in anodised aluminium finish. Any one can simply open the front profile to change the posters. With anti-glare cover on both sides of the window, posters can be displayed both indoors and outdoors.

Adhere the frame to one side of the window and the decorative aluminium strip to the other side - no unsightly double sided tape on view

Item no	Size(mm)	Weight inc packing
ET4-40	A2(420 x 594)	1.5
ET4-41	A1(594 x 841)	2.75

Frame comes packed individually. Please clean the glass thoroughly before applying the double sided tape for better adhesion

The system includes a back profile which hides the double sided tape which holds the frame to the window. The tape surrounds the complete frame to prevent water from wetting the poster.
