http://www.configureone.com/contact/walkthrough.html - sometime it's better not to use Flash
http://www.webcominc.com

Among larger companies in the general space:
http://www.selectica.com
http://www.comergent.com
These have better graphics

Please list at least 2-4 websites that you admire in any industry. What in particular do you admire about them? Overall look & feel? Content? I (User Interface)?
http://www.landor.com - clean, simple, easy to understand
http://www.landslide.com – it's all about the selling
http://maps.google.com – they entered an established space (MapQuest and Yahoo) and showed you could do it better

Which websites do you dislike and why?

9. Contact information
Please provide a direct contact, phone number, email and mailing address.
Howard Fields
510-653-9163 x 122
Howard@technicon.com
4701 Doyle Street Ste. 8
Emeryville, CA 94608

Do you have a deadline for the proposal?
October 23, 2006 if possible

10. Additional information
Do you have a preliminary site map?
The current site map for the TechniCon site

Do you know the technical requirement (server, database)?
TechniCon will deploy the site using IIS and SQL Server.

Do you know the user requirement (browsers, versions)?
TechniCon will be responsible for developing and deploying the site. The site should be compatible with all current browsers. Nearly 90% of the visitors to the site use Internet Explorer 6 (75%) or Firefox 1.5. Safari represents 2% of visitors (less than Internet Explorer 7).
