

Theatre Solutions fixed seating lines include numerous features and options that make them suitable for a variety of applications.

**Performing Arts Centers** - Outer wood reflective surfaces, diffuser pedestal bases and silent seat tip-up movement make the Teatro and Planar ideal choices for PAC installations.

**Education Facilities** - The TSI Fixed Training Tables and Seating Series provide work-surfaces, semi-fixed seating and desktop power and data for students in a variety of educational settings. TSI's Teatro and Acclaim offer retractable tablet arms and power / data frames for laptop support.

**Museums** - The elegant designs of the Prima and the custom capabilities afforded by the Teatro and Planar chair provide museum designers the opportunity to craft a chair to their project's unique needs.

**Courtrooms** - The Aeron and Forum models provide ergonomically sound solutions for both jury and witness seating. Additionally, the Teatro, Acclaim and Planar chair lines offer traditional fixed seating solutions for courtroom public seating and swivel / return jury seating.

**Worship Facilities** - All of TSI's fixed seating offers silent tip-up seats that eliminate sounds that interfere with sacred services. Additionally, TSI's custom capabilities support planners in meeting their design objectives.

**Corporate** - Whether supporting corporate training programs or a shareholder's meeting; all of TSI's fixed seating products will accommodate the needs of these users.

## Fixed Seating

Overture Center for the Arts

Theatre Solutions is committed to providing the highest quality auditorium seating and services in the world. Our products are designed to provide years of trouble-free use and have been installed in some of the most prestigious performance venues including Carnegie Hall, The Kodak Theatre, and Jazz at Lincoln Center.

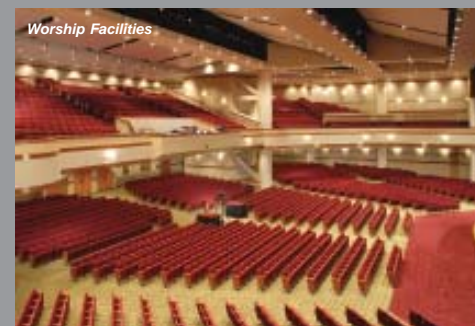

**Teatro**

Designed specifically to meet the high standards required by the most prestigious assembly spaces and performing arts centers, the Teatro series provides superior comfort, aesthetics and durability. The availability of fully-upholstered seat and back cushions or outer veneer panels makes the Teatro an extremely versatile chair.

The Teatro series is a full offering, including options such as tablet arms, power/data frames, diffuser bases, aisle lights, ADA frames, removable chair assemblies, ID and donor plates. TSI will also customize the Teatro chair to meet your projects' specific requirements.

**Education**  
The University of Virginia, Darden Auditorium

**Worship Facilities**  
Westover Church

**Acclaim**

Provides a functional and subtle elegance with simple but pleasing lines. A thin common frame allows for a greater seat size and increased comfort. A slim chair profile permits the architect to increase capacity without sacrificing comfort or proper egress space. The Acclaim is available with fully-upholstered seats and backs or with an optional veneer back panel. Removable fabric covers are standard for easier maintenance.

The Acclaim includes options such as tablet arms, power/data frames, aisle lights, ADA frames, removable chair assemblies, ID and donor plates.

**Museum**  
The Denver Art Museum - Lewis I. Sharp Auditorium

**Prima**

The styling of the Prima chair offers a fresh alternative for fixed seating applications. Seating components are available in numerous finishes and can be mixed to create a variety of styles.

From a plush leather, fully-upholstered model to veneer components with inset upholstery, Prima is the obvious first choice for unique fixed seating applications.

**Tier**

The scale and posture of the Tier chair make it an ideal selection to meet the unique requirements of private box patrons. The hardwood frames are available in any TSI standard or custom finish.

The profile of the Tier chair mimics the TSI Teatro fixed seating line. By combining these seating lines, the finish and appearance of the loose and fixed chairs will be complimentary throughout the concert hall.

**Planar**

The Planar chair is available in six different back/seat shapes, available with standard or inset upholstery. Each shape creates a unique look, from traditional opera house styling to clean contemporary lines.

The simplicity of design and wide range of shape options, combined with an array of custom finishes, fabric and wood details allow the designer to achieve the appropriate version for any project.

This very adaptable series includes options such as tablet arms, aisle lights, ADA frames, removable chair assemblies, ID and donor plates.

Through an alliance with Herman Miller®, a world leader in ergonomic seating, TSI has developed a revolutionary fixed table/chair system that brings state-of-the-art network technology and unprecedented comfort to the learning environment. The ergonomic benefits of these award-winning chairs are now available for the classroom or training facility.

**Aeron®**

Herman Miller's Aeron chair has revolutionized the world of ergonomic seating by introducing users to the benefits of its unique Pellicle® suspension and Kinemat® tilt mechanism. The marriage of Aeron to TSI's lecture table system breaks new ground by providing advanced ergonomics and state of the art design in a fixed training room environment.

**Equa 2®**

Herman Miller's Equa 2 chair was originally designed as a high performance office chair; many of its key design elements make it an ideal lecture/training room chair. The seat and back of the one-piece shell flex independently, providing passive support for users as they shift body position and posture. The opening between the seat and back lets air circulation keep the occupant cool.

**Education**  
University of Medicine & Dentistry of New Jersey

**Corporate**  
ViaSat Corporate Headquarters

**Forum**

The clean, simple lines and comfort of the TSI designed Forum chair make it an ideal choice for use in either a fixed training table application or as a single pedestal base installation. The Forum's shape mirrors the look of the Teatro auditorium chair providing design continuity for installations that combine fixed and swivel seating.

The Forum is fully-upholstered and available in both an arm and armless version. A choice of either a swivel/tilt or fixed movement is available.

**Jury Seating**

The unique requirements of today's courtroom requires seating models that provide modern styling and silent ergonomic functions. The Forum and Aeron® chairs are both available with a 360 degree swivel and memory return as well as adjustable tilt tension. Limited swivel movement as well as non-tilt and armless uppers are also available. In addition to courtroom applications, pedestal based seating can be used with fixed tables in a training room environment.
