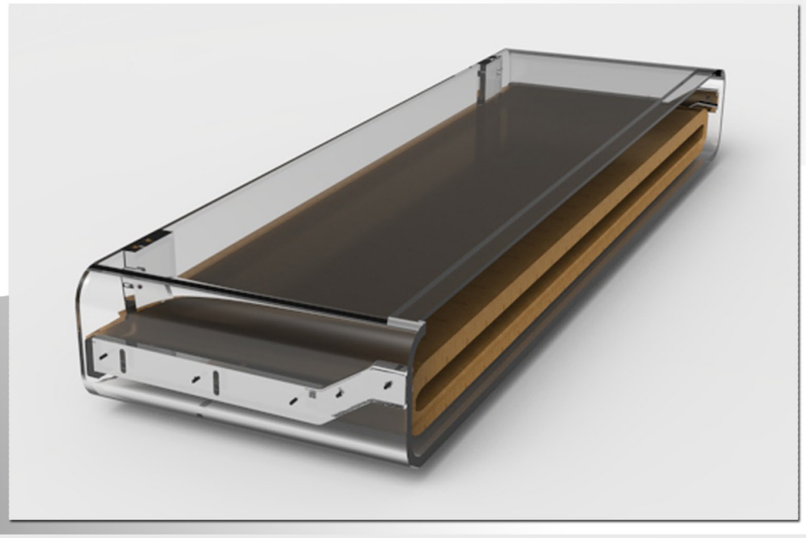
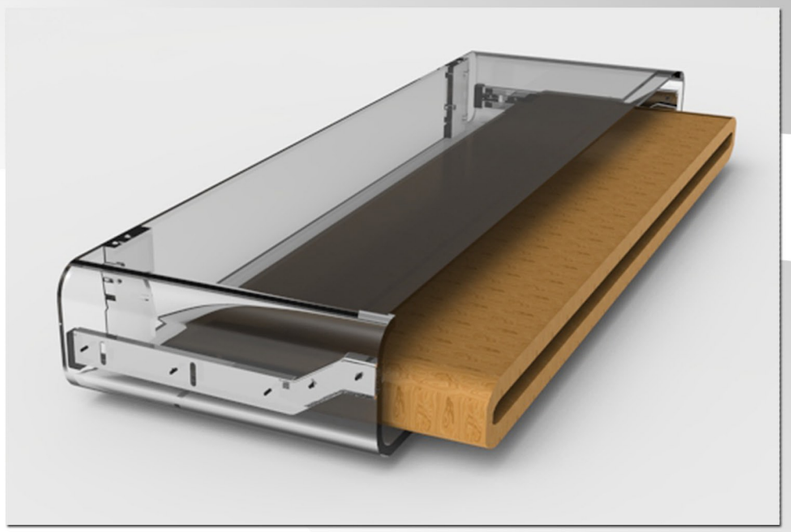
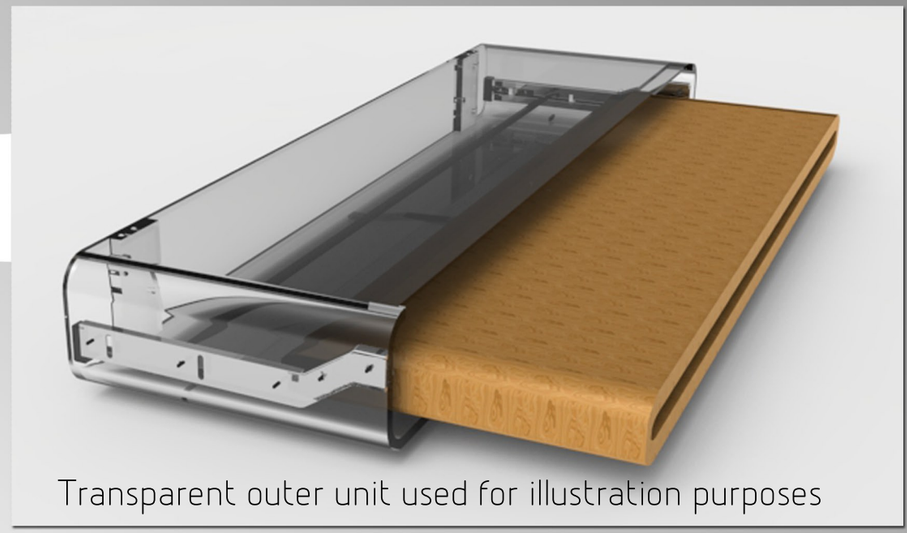
Key product features

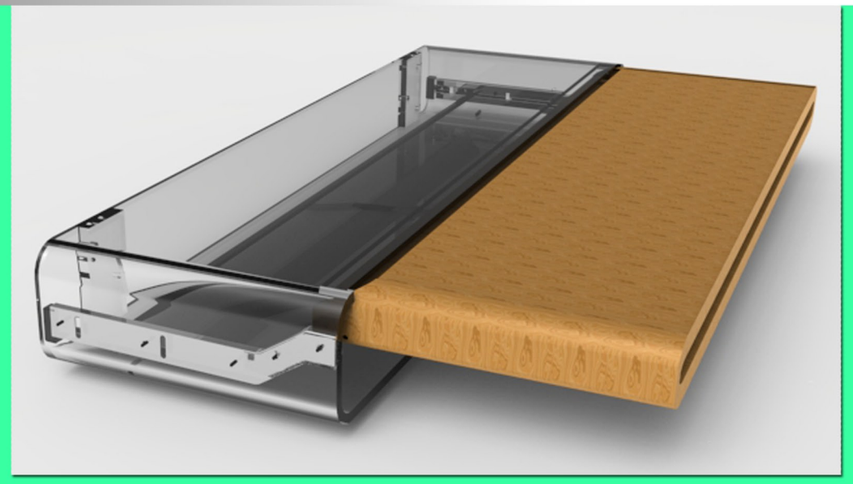
Thomas Addison - 09014250

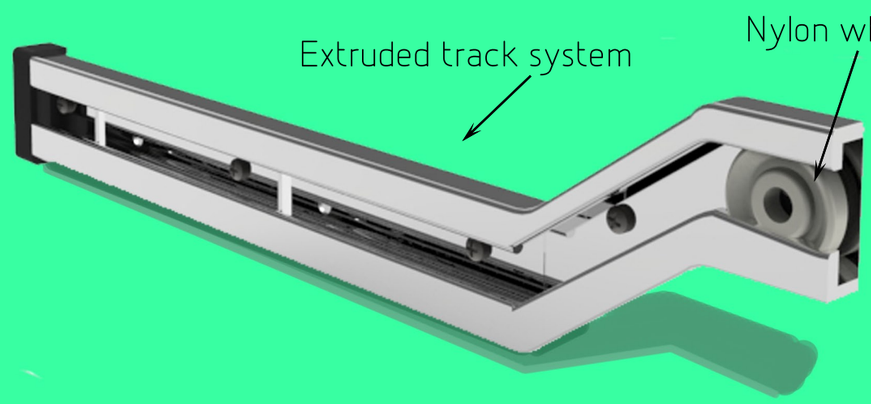




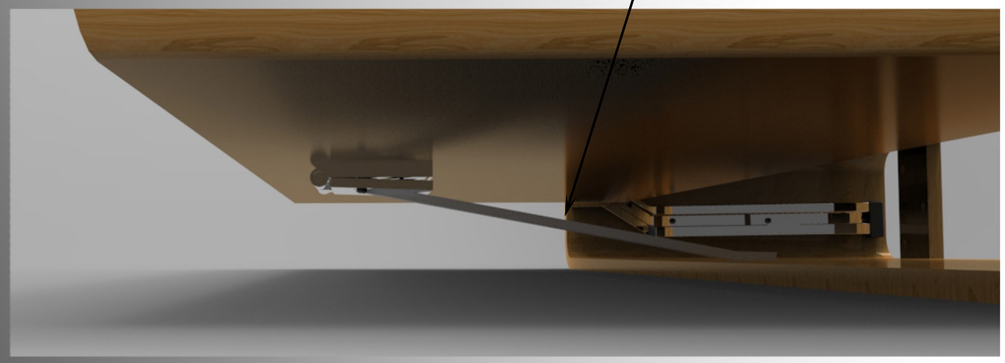


Transparent outer unit used for illustration purposes





Aluminium extruded track system allows the inner desk to be pulled out and the slope allows the inner unit to allign vertically with the outer unit, creating a flush top.

Slanted back edge allows the inner unit to be pulled out and then moved in a diagonal way to meet with the outer unit.


Hinged Arm gives support to the inner desk unit when being used.
