How Green Tea™ Works to Help You Lose Weight Fast!

For hundreds of years the nutritional benefits of green tea have been praised in China and Japan. The polyphenols and flavinoids of the tea are high in powerful antioxidants that help boost the immune system by stopping free radicals. The polyphenols in green tea are known to relax the blood vessels, fight cancer, and even demonstrate anti-plaque properties that can help prevent heart disease and cavities. In addition, the caffeine in green tea speeds up the metabolism, while the polyphenols aid in the digestion of fat, helping you lose weight by burning more fatty calories.

Thanks to Total Essential Living's Green Tea Weight Loss supplement, you can now get all the nutritional and weight loss benefits of daily green tea intake in an easy-to-swallow capsule. Help boost your immune system, speed up your metabolism, improve your circulatory system, and fight cavities, heart disease and cancer.

Lose weight fast and keep it off with one simple, healthy, all-natural weight loss supplement. Green Tea: it's been proven to work in thousands of studies over hundreds of years!

Quality Ingredients for Rapid Weight Loss

INGREDIENTS	FUNCTIONS & BENEFITS
Green Tea Leaf Extract	Green tea is known the world over for its antioxidant properties. Antioxidants help clear the harmful toxins out of your system, making your body more efficient so it can burn fat faster.
Guarana	The all-natural energy boosting properties of Guarana help speed up your body's metabolism. And because it's all-natural, the boost is safer and healthier than other metabolism boosting products.
Quercetin	In addition to its antioxidant uses, Quercetin also has anti-inflammatory properties that help the body recover quicker after physical activity. A quicker recovery means your body is burning calories faster.
