

Let the good times roll

The road ahead might not
always be paved in gold.
Sometimes you might even
come across a bump in the road.
The bump leads to the car
making a funny noise.
Luckily you have crossed this
bridge before and know exactly

what's making the noise. You're
able to go right to the problem, fix it
and la-di-da, continue on your way.
Never sweating the little things.

HONDA

It's not the destination
it's the journey
