:: GARMOR

We would like to thank you for reviewing our brochure which contains the representative portion of what we are making right now based on OEM glove manufacturer so any business dealt with us is factory direct.

With production facilities located in Pakistan, you can be assured that working with us on your glove program will prove to be highly rewarding. Not only will you be able to reap all the benefits of working directly with a manufacturer but in addition, you will receive the best service this industry has to offer.

Garmor has been in the glove manufacturing business for close to four decades and over the years, we have developed many key methods to increase our efficiency and level of services to our customers.

There are few, if any, manufacturer who offer such a complete glove program such as ours. It has and will always be our goal to provide our best manufacturing services to our customers. Some of the important support and services we can provide include:

research and development, design and analysis, marketing support consultancy. Our aim is to develop more of our partnership with our customers, rather than just a vendor-purchaser relationship. With Garmor, you can be assured of receiving tip quality service and OEM/ODM/SMU products.

We would greatly appreciate it if you would take a little more time to review this brochure and contact us for further inquiries.

Thank you,
Team @ Garmor

TURN ON YOUR GLOVE

This function adds a unique feature to your normal glove, you can use all the touch-screens without taking off your gloves in winter weathers.

FLEXOPRENE FABRIC

FLEXPRENE fabric originate from Cationic Yarn fabric on the top with SBR RUBBER and polar fleece for warmth in daily winter use for running, cross-country and driving around.

WINDBAN FABRIC

WINDBAN fabrics are made based on the industry's advanced method of fabrication to block windy weather. Outer-layer is extra soft Polyester with breathable membrane, and fleece in the innerside.

Hipora is a waterproof and breathable fabric, used as insert in winter and motorcycle gloves. It is developed by the Korean company Kolon Industries Inc.

ThermoMate™

Winter is good with ThermoMate; made from synthetic fibers to protect you from cold. Available in 40g, 70g, and 100g. Developed and marketed by NRM LLC (Pak)

STOPORE™

Advance system for waterproofing of gloves and mittens. Made from breathable TPU films, and available in all shapes and sizes. Developed and marketed by NRM LLC (Pak)

Since the 1700's, in tandem with the consistently changing environment and the continued development, revolution and innovation of human history, Coats has continued to develop and implement solutions for our global customer base.

Strengthened by over 50 years of experience in the textile industry, Carvico has, throughout its history, gradually consolidated and expanded its global reputation in the warp-knitted fabric sector.

Thinsulate™

3M™ Thinsulate™ Insulation is used in your jackets, pants, gloves to help keep you warm when it's cold outside. The unique microfibers or fine fibers that make up Thinsulate insulation work by trapping air molecules between you and the outside

Pittards is the preferred supplier of high performance leather for many global brands of gloves, shoes, luxury leathersgoods and sports equipment.

Clarino (クラリーノ) is the premier synthetic leather-like material, commonly used in gloves, Versions are made that simulate suede and top-grain leather. It is manufactured by Kuraray Co., Ltd. of Japan.

Chamude®

Quality synthetic leather from KOLON (Korea) feels like original leather even when wet condition. Available in Water-repellent option.

Thinsulate is registered trademark of 3M Inc, Coats is brand of Coats Ltd
Pittards is registered trademark of Pittards LLC, ThermoMate is registered
trademark of NRM LLC. All other trademarks are registered/copyright
of their respective owners
